Attorneys for Defendant,
TASER International, Inc.

1 officers to avoid deployments to the chest and warn about the risks of cardiac arrest as a result of
2 chest deployments until September, 2009.

3
4 TASER denies liability, including that any alleged defect in the ECD or inadequacy of
5 TASER's warnings existed or caused Dr. Rich's death. TASER asserts that even though Dr. Rich
6 knew and was warned not to operate a vehicle because he suffered from uncontrolled epileptic
7 seizures, on January 4, 2008, he drove his vehicle, experienced a seizure while driving, crashed
8 into several vehicles on I-15, and suffered cardiac arrest as a complication of his postictal state.
9 TASER asserts that Plaintiffs cannot establish any hazard or risk caused by the ECD, nor can they
10 establish that TASER breached a duty to warn. TASER asserts that it provided adequate
11 warnings of the potential risks attendant to ECDs. In addition, TASER asserts that as a matter of
12 general causation, an ECD cannot cause the injuries Dr. Rich suffered, and TASER did not know
13 and could not have known or reasonably discovered that its ECD was unreasonably dangerous at
14 all relevant times. TASER also asserts that Plaintiffs cannot demonstrate specific causation.
15 TASER also asserts that Dr. Rich was more at fault for his death than any alleged fault on the part
16 of TASER, and that Rich assumed the risk.
17

18
19 **VIII. STATEMENT OF JURISDICTION**

20 The Court has diversity jurisdiction over this matter pursuant to 28 U.S.C. § 1332. The
21 lawsuit is between Plaintiffs, citizens of Idaho and Utah, and TASER, a Delaware corporation
22 with its principal place of business in Arizona. The amount in controversy exceeds \$75,000,
23 exclusive of costs and fees.
24

25
26 **IX. FACTS ADMITTED BY THE PARTIES**

27 The following facts are admitted by the parties and require no proof:
28

- 1 1. As of January 4, 2008, Dr. Rich was a 33-year-old medical resident at Valley
2 Hospital Medical Center in Las Vegas, Nevada.
- 3 2. R.J. was the natural daughter of Dr. Rich and Tanya Jensen.
- 4 3. On January 4, 2008, Trooper Lazoff discharged his TASER X26 ECD on Dr. Rich.
- 5 4. On September 20, 2007, Dr. Rich had a generalized, witnessed seizure.
- 6 5. In 2007, Dr. Rich stated to medical professionals that he had a history of seizures.
- 7 6. On November 10, 2007, Dr. Rich was treated at Valley Hospital for an automobile
8 accident and seizure, noting again a history of a seizure disorder.
- 9 7. Some time shortly before November 2007, Dr. Rich was driving his vehicle and
10 pulled over to the side of a road, because he felt an imminent seizure and called a
11 friend to drive him instead.
- 12 8. In the days and months before January 4, 2008, Dr. Rich told his nurse practitioner
13 that his seizures were increasing.
- 14 9. In late 2007, Dr. Rich's nurse practitioner instructed him at every visit not to drive
15 because it was unsafe, including at a visit on January 3, 2008, a day before Dr.
16 Rich's death.
- 17 10. On January 4, 2008, Dr. Rich was driving on I-15 when his truck struck the rear of
18 a semi-truck trailer, after which Dr. Rich's truck swerved left and collided with a
19 van.
- 20 11. At the time of Dr. Rich's collisions with other vehicles on I-15 on January 4, 2008,
21 the traffic on I-15 was going approximately 50 mph.
- 22 12. After Dr. Rich's truck collided with other vehicles on I-15, Rich's truck swerved
23 to the left and came to rest against the center median, with its front-left tire on the
24 median wall.
- 25 13. Trooper Lazoff suspected that Dr. Rich was either having a medical emergency or
26 was under the influence of drugs or alcohol.
- 27 14. In February, 2007, Dr. Rich's employment with Valley Hospital in Las Vegas,
28 Nevada was terminated and his medical residency was suspended due to his failure
to appear for his scheduled shift.
15. After completing the treatment program at the Betty Ford Center, in October 2007,
Dr. Rich was rehired by Valley Hospital in Las Vegas and he was reinstated to the
residency program.
16. The TASER X26 ECD is a weapon and use-of-force tool used by law enforcement
officers.

- 1 17. NHP purchased X26 ECDs in July 2006 for use by its troopers.
- 2 18. The ECD used by Trooper Lazoff in his encounter with Dr. Rich on January 4,
- 3 2008 was purchased by NHP and shipped by TASER to NHP on July 20, 2006.
- 4 19. NHP purchases and trains its troopers on various use-of-force tools and options,
- 5 including ECDs.
- 6 20. NHP makes all decisions to equip troopers with ECDs and guides its troopers in
- 7 tactical practices.
- 8 21. TASER's April 12, 2006 Product Warnings were shipped (on July 20, 2006) with
- 9 the ECD used by Trooper Lazoff in his encounter with Dr. Rich, along with
- 10 TASER's Training Version 13 DVD, and TASER's 2006 X26 ECD Operating
- 11 Manual.
- 12 22. Trooper Lazoff received extensive training in various use-of-force tools and
- 13 options, including ECDs, firearms, open hand combat, batons, and handcuffing.
- 14 23. NHP conducted Trooper Lazoff's October 20, 2006 and November 20, 2007 ECD
- 15 training sessions utilizing TASER's training materials and PowerPoint
- 16 presentations
- 17 24. For his 2006 and 2007 ECD training sessions, Trooper Lazoff was presented with
- 18 and trained based on TASER's Training Version 13 PowerPoint[®] presentations
- 19 (user in 2006 and instructor in 2007).
- 20 25. For his October 20, 2006 ECD user training session, Trooper Lazoff and the other
- 21 trainees were presented with "TASER's Product Warnings – Law Enforcement,
- 22 April 12, 2006" as part of the troopers training.
- 23 26. For his November 20, 2007 ECD instructor training session, Trooper Lazoff and
- 24 the other trainees were presented with "TASER's Product Warnings – Law
- 25 Enforcement, March 1, 2007" as part of the troopers' training.
- 26 27. TASER Training Version 14 was released and effective as of December 1, 2007.
- 27 28. On January 4, 2008, Dr. Rich's first presenting cardiac rhythm, after being
- 28 identified non-responsive by Dr. Craig Morris ("Dr. Morris") and/or Trooper
- Lazoff, as identified on a heart or cardiac monitor or defibrillator, or by other
- means, was asystole (or flat line).
29. On January 4, 2008, Dr. Rich's second monitored cardiac rhythm, after being
- identified as non-responsive by Dr. Morris and/or Trooper Lazoff, as identified on
- a heart or cardiac monitor or defibrillator, or by any other means, was asystole (or
- flat line).

- 30. On January 4, 2008, after Dr. Morris and/or Trooper Lazoff identified Dr. Rich as being non-responsive, the only cardiac rhythm of Dr. Rich identified by any medical services or treatment provider was asystole (flat line).
- 31. At no time on January 4, 2008, did any medical services or treatment provider to Dr. Rich identify Dr. Rich as being in cardiac capture, or having the cardiac rhythm of ventricular tachycardia or ventricular fibrillation.
- 32. The 1988 Klein/Heger/Zipes [Klein LS, Miles WM, Heger JJ, Zipes DP: Transcutaneous pacing: patient tolerance, strength-interval relations, and feasibility for programmed electrical stimulation. Am J Cardiol. 62:1126-1129, 1988] paper showed that 4-8 milliamperes (“mA”) average current was delivered to the human chest and caused continuous cardiac capture but that ventricular fibrillation was never induced.
- 33. On January 4, 2008, Dr. Rich suffered from a seizure while driving and remained in postictal state—an altered state as the brain recovers from a seizure—during his encounter with Trooper Lazoff.
- 34. On March 27, 2008, a post-mortem examination by the Clark County Coroner determined that “the death of this 33-year-old Caucasian male, Ryan Rich, is due to seizure disorder with other conditions including restraining procedures.”

X. FACTS NOT ADMITTED, BUT NOT CONTESTED, BY THE PARTIES

The following facts, though not admitted, will not be contested at trial by evidence to the contrary:

None.

XI. ISSUES OF FACT TO BE TRIED

The following are the separate and specific issues of fact to be tried and determined upon trial:

- 1. Whether on July 20, 2006, it was known or knowable that the X26 ECD used by Trooper Lazoff on Dr. Rich was shown to cause cardiac arrest.
- 2. Whether the X26 ECD used by Trooper Lazoff on Dr. Rich actually caused Dr. Rich’s cardiac arrest.
- 3. Whether the X26 ECD used by Trooper Lazoff on Dr. Rich had a warnings defect rendering it unreasonably dangerous for its intended function, and the warnings defect caused Dr. Rich’s alleged injuries.

16
17
18
19
20
21
22
23
24
25
26
27
28

4. Whether TASER sold its X26 ECD without suitable and adequate warnings concerning its safety and foreseeable use thereby rendering it defective and unreasonably dangerous for its intended function.
5. Whether TASER knew or had reason to anticipate that the X26 ECD was unreasonably dangerous for the use for which it was supplied, had no reason to believe that those for whose use the product was supplied would realize its alleged dangerous condition, and failed to exercise reasonable care to inform users of its products of its alleged unreasonably dangerous condition or of the facts that made it likely to be unreasonably dangerous.
6. Whether the X26 ECD used by Trooper Lazoff was the actual and proximate cause of Dr. Rich's alleged injuries – that is, but for the allegedly defective warnings, the injury would not have occurred.
7. Whether the alleged warning defect with the X26 ECD used by Trooper Lazoff was a substantial factor in causing the alleged injury, without intervening or superseding causes.
8. Whether Dr. Rich reasonably mitigated his damages.
9. Whether TASER engaged in malicious or oppressive conduct or consciously and deliberately disregarded known safety measures regarding the use of its X26 ECD in reckless disregard of the likely results to justify punitive damages.
10. When Dr. Rich's cardiac arrest occurred in relation to a heart monitor determining that Dr. Rich was asystolic.

To the extent that any of these Issues of Fact are deemed to be more properly considered issues of law, they are incorporated in that section.

Aside from these issues developed by the parties, TASER also contends the following issues of fact should also be decided.

1. Whether TASER had reason to anticipate that Dr. Rich's alleged injuries could result from the use of the X26 ECD.
2. Whether the TASER X26 ECD was state of the art on July 20, 2006.
3. Whether Dr. Rich assumed or otherwise comparatively contributed to the risk of the injuries alleged in this case.
4. Whether Trooper Lazoff misused his X26 ECD in deploying it contrary to TASER's instructions and warnings.
5. Whether the X26 ECD used by Trooper Lazoff was capable of causing the particular injuries suffered by Dr. Rich on January 4, 2008.

25
26
27
28

6. Whether Plaintiffs have met their burden of proof to establish a right for relief and right to damages, including without limitation punitive damages.

XII. ISSUES OF LAW TO BE TRIED

The following are the separate and specific issues of law to be tried and determined at trial:

1. Whether TASER is strictly liable for the injuries to Dr. Rich from his exposure to TASER's X26 ECD.
2. Whether TASER was negligent by providing inadequate warnings with the sale of its X26 ECD on July 20, 2006.
3. Whether TASER owed a duty to Dr. Rich, including without limitation a duty to warn.
4. Whether Dr. Rich was more at fault for his own death than TASER.
5. All issues of fact in Section V to the extent they are also issues of law or mixed questions of fact/law.

Aside from these issues developed by the parties, TASER also contends the following issues of law should also be decided.

1. Whether Dr. Rich was negligent in driving his motor vehicle on I-15 despite being an epileptic with medically uncontrolled seizures and having been repeatedly advised not to drive by his medical providers.
2. Whether Dr. Rich violated N.R.S. § 439.270 by not reporting his epileptic condition to the Health Division of the Nevada Department of Health and Human Services and was negligent *per se*.

XIII. EXHIBITS AND DEPOSITIONS

A. EXHIBITS

The parties reserve the right to offer the following exhibits into evidence. The parties have stipulated to the genuineness and authenticity of the following exhibits. All other objections are reserved for trial. The parties do not waive any objections by virtue of listing exhibits here.

195. All documents and exhibits identified by other parties, without waiver of objection.

B. DEPOSITIONS

The parties may use, through stenographic means or video tape, excerpts from the following depositions. The parties reserve all objections to this testimony.

I. Plaintiffs will offer the following depositions:

Plaintiffs' deposition designations are listed in Exhibit A attached hereto.

II. Defendant will offer the following depositions:

TASER's deposition designations are listed in Exhibit B attached hereto. TASER reserves the right to designate deposition testimony for any witness who becomes unavailable.

XIV. WITNESSES

The following witnesses may be called by the parties upon trial:

I. Names and address of Plaintiffs' witnesses:

1. Trooper Loren Lazoff, Nevada Highway Patrol, Las Vegas, NV.
2. Piotr Kubiczek, M.D., Clark County Coroner's Office, Las Vegas, NV
3. Craig Morris, DDS, 5718 San Florentine, Las Vegas, NV 89141

- 10 29. Any necessary rebuttal witnesses or experts

11 **XV. MOTIONS IN LIMINE**

12 On July 2, 2011, TASER filed Motions to Exclude Plaintiffs' Tendered Experts Dr.

13 Jerome Engel, Dr. Michael Wogalter, and Dr. Douglas Zipes. Dckt. Nos. 50-52. On March 30,

14 2012, the Court granted the Motions as to Engel and Wogalter, and denied the Motion as to Zipes.

15 [Dckt. No. 119].

16 Any remaining motions *in limine* will be filed thirty (30) days prior to trial in compliance

17 with LR 16-3(b).

18 In addition, TASER intends to file a Motion to Bifurcate the trial of this matter, pursuant

19 to Federal Rule of Civil Procedure 42, into two phases: (1) to address the issues of liability and

20 compensatory damages and (2) to address whether to award and the amount of any punitive

21 damages.

22

23

24 **XVI. TRIAL DATE**

25 Counsel have met and conferred regarding possible trial dates and have been unable to

26 reach an accord on agreeable dates. Therefore, Plaintiff is available and submits the following

27 three dates for trial: July 15, 2013; July 22, 2013; and August 5, 2013. TASER is available and

28

1 submits the following three dates for trial: November 4, 2013; December 2, 2013; and March 3,
2 2014.

3
4 It is estimated that the trial herein will take a total of 15 days.

27

Case No. 2:09cv-02450-ECR-RJJ

**EXHIBIT "A" — PLAINTIFFS'
DEPOSITION DESIGNATIONS
FOR TRIAL**

PLAINTIFFS' DEPOSITION DESIGNATIONS FOR TRIAL

1
2 Plaintiffs RANDY RICH, as the personal representative of RYAN RICH, deceased, and
3 NICK JENSEN and TANYA JENSEN, as Guardians for R. J., a minor (hereinafter jointly
4 referred to as "Plaintiffs") identify the following deposition excerpts for use at trial.

5 By designating deposition excerpts, Plaintiffs are not waiving their right to call the
6 witness at trial. Plaintiffs reserve objections to designations from TASER. Without waiving
7 objections, Plaintiffs reserve the right to use TASER's designations. Plaintiffs also reserve the
8 right to amend or supplement designations in accordance with the Federal Rules of Civil
9 Procedure, local rules, or by agreement, including rebuttal designations if necessary.

10 **DEPOSITION DESIGNATIONS**

11 Plaintiffs offer the following deposition designations (and in instances counter-
12 designations) for use at trial. For these witnesses, Plaintiffs fully expect that the witnesses will
13 be called at trial, and Plaintiffs are submitting the designations in the event that the witness
14 becomes unavailable to testify. Plaintiffs also reserve the right to designate further deposition
15 testimony in compliance with the requirements of Local Rule 16-3 and 16-4 in the event a
16 witness becomes unavailable who is not listed in these designations. Plaintiffs also reserve the
17 right to designate relevant deposition testimony from other cases in which certain expert
18 witnesses have testified in the event such experts are unavailable to testify at trial.

**DEFENDANT TASER INTERNATIONAL, INC.’S
DEPOSITION DESIGNATIONS FOR TRIAL**

Defendant TASER International, Inc. (“TASER”) identifies the following deposition excerpts for use at trial, as well as those it may use in the event of witness unavailability or other appropriate circumstances.

By designating deposition excerpts, TASER is not waiving the right to call the witness at trial. TASER reserves objections to designations from Plaintiff. Without waiving objections, TASER reserves the right to use Plaintiff’s designations. TASER also reserves the right to amend or supplement designations in accordance with the Federal Rules of Civil Procedure, local rules, or by agreement, including rebuttal designations if necessary.

DEPOSITION DESIGNATIONS

TASER offers the following deposition designations (and in instances counter-designations) for use at trial. For these witnesses, TASER expects that the witnesses will be called at trial, and TASER is submitting the designations in the event that the witness becomes unavailable to testify. TASER also reserves the right to designate further deposition testimony in compliance with the requirements of Local Rule 16-3 and -4 in the event a witness becomes unavailable who is not listed in these designations.

RESERVED DESIGNATIONS

TASER currently plans to call as expert witnesses Dr. John Peters, Jr., Dr. Mark Kroll, Keith Hock, Jeni Kostelac, Dr. Gary Vilke, Dr. James Stone, Dr. Jan Leestma, Dr. Michael Evans, Dr. Dorin Panescu, Andrew Hinz, J. Patrick Reilly, and Patrick Smith. Based on the course of trial, scheduling, witness availability, distance, out-of-state (or out-of-country) travel, etc., TASER tenders the following designations for some of these witnesses in the event they become unavailable for trial. TASER also reserves the right to designate relevant deposition testimony from other cases in which these experts have testified in the event the experts are unavailable to testify at trial.
