Case No. 2:10-cv-00865-PMP-PAL

AMENDED ORDER

Before the court is the parties' Stipulated Discovery Plan and Scheduling Order which requests special scheduling review (Dkt. #26).

The complaint in this case was filed in state court and removed (Dkt. #1) June 4, 2010. Proceedings in this matter were stayed pending transfer to the Panel on Multidistrict Litigation in the Eastern District of Michigan. *See* Minutes of Proceedings (Dkt. #12) and Certified Conditional Transfer Order (Dkt. #13) entered August 30, 2010, and September 8, 2010, respectively. On April 17, 2012, the Panel on Multidistrict Litigation conditionally remanded the case to this court for further proceedings. The Certified Conditional Remand Order was filed in this court May 22, 2012 (Dkt. #15). The parties did not submit a proposed discovery plan and scheduling order (Dkt. #16) until September 14, 2012, which the court set for hearing on September 25, 2012. The parties disputed the scope of the discovery which should be permitted, and whether the pleadings could be amended after remand from the MDL court. The court granted the parties' Stipulation (Dkt. #18) continuing the scheduling conference and reset the scheduling conference at the parties' request until October 16, 2012. *See* Order (Dkt. #19).

At the October 16, 2012, hearing, the court heard the parties' dispute concerning whether or not the complaint could be amended after remand, and the scope of discovery that should be permitted in

1 light of the MDL consolidated pretrial proceedings. The court gave counsel for Plaintiff 14 days from
2 the hearing to propound written discovery, and reset the matter for a status and dispute resolution
3 conference on December 20, 2012, as Plaintiff's counsel believed there would be disputes. The court
4 directed that the parties file a Joint Status Report articulating their respective positions concerning any
5 discovery disputes after Defendant's responses had been received. The parties failed to comply. At the
6 December 20, 2012, conference, counsel indicated that Ford had recently produced responsive
7 documents and gave counsel for Plaintiff until January 22, 2013, to review the documents so that the
8 parties could submit a proposed revised discovery plan and scheduling order to complete the remaining
9 discovery necessary to prepare this case for trial.

10 The parties have now submitted a proposed discovery plan and scheduling order which would
11 establish an October 17, 2013, discovery cutoff, nearly 17 months after remand from the MDL court.
12 The court will not approve the parties' plan. This is a subrogation action in which a homeowner's
13 insurer seeks to recover sums paid to or on behalf of its insured for a fire that occurred at a residence in
14 Las Vegas, Nevada, on May 28, 2008. The Plaintiff insurance company, American Family, alleges that
15 the fire originated from the insured's 2000 Ford Expedition and was caused by a defective speed control
16 deactivation switch. The complaint alleges damages in excess of \$10,000. The civil cover sheet
17 removing this action indicates Plaintiff's demand was \$141,013.31. This case was among 146 other
18 cases transferred to the Eastern District of Michigan as MDL No. 1718 for consolidated proceedings in
19 connection with the *In Re: Ford Motor Co. Speed Control Deactivation Switch Products Liability*
20 *Litigation*. Extensive pretrial liability discovery occurred, and a document depository was established to
21 give all parties access to discovery. It was remanded for case-specific discovery. Common liability
22 discovery of the alleged defective part has been completed and common discovery remains on file in the
23 MDL 1718 document depository.

24 The parties' proposed discovery plan and scheduling order states that expert witnesses will need
25 to be retained to investigate the accident and analyze the 2000 Ford Expedition. As this is a
26 subrogation action premised on a product defect in a vehicle alleged responsible for the fire, Plaintiff
27 must have retained one or more experts to opine that the 2000 Ford Expedition deactivation switch
28 caused this fire before filing this complaint. If not, the court questions the Rule 11 basis for filing this

1 case. Similarly, the insurance company must have conducted an investigation of fire cause and origin,
2 and have documentation regarding the damages claimed before paying its insured and pursuing this
3 action. Thus, the court does not agree that the discovery needed to prepare this case for trial is
4 “extensive” and requires special scheduling review. The parties failure to submit a proposed discovery
5 plan and scheduling order until almost 4 months after remand has already unreasonably delayed
6 resolution of this case.

7 Having reviewed and considered the matter,
