The magician cuts one by one the leaves from a rose... in her shadow ! But it happens in reality on the real rose which is standing 2 meters away from her shadow. Everything is separate and loose from each other, so how is this possible? This is the most Magical, romantic and beautiful illusion I know. I've seen the great Penn & Teller performing a similar trick and now I'm very happy to share my version in a different and more impossible way with you. It is so magical to manipulate a shadow! The audience is so surprised especially when they see that the stem and 'vase' filled with water are removed from the table ! In combination with the floating table effect, these are fur sure 'the' eye catchers' in my show.

It could be a wonderful and refreshing addition to all your coin or card tricks on show !

Thanks for watching my movie,
