2:13-cv-00076-JAD-NJK

**Order Lifting Stay and Directing Parties to  
File their Joint Pretrial Order**

[ECF No. 160]

11 On August 19, 2016, Defendant filed his Second Motion in Limine.<sup>1</sup> The document  
12 suffers from formatting problems. First, Local Rule IA 10-1(a)(1) states that “Lines of text must  
13 be numbered consecutively beginning with 1 on the left margin of each page with no more than  
14 28 lines per page.” In my June 17, 2016, order, I reminded the parties that the Local Rules have  
15 been recently amended and that “any motion in limine must comply with the local rules as  
16 amended.”<sup>2</sup> Defendant’s motion was not submitted on lined pleading paper, thus violating Local  
17 Rule IA 10-1(a)(1). Second, it appears that some formatting error occurred and has caused  
18 various symbols to be replaced by others. For example, apostrophes have been replaced with  
19 equal signs, and quotation marks have been replaced by the @ symbol. Finally, the case caption  
20 incorrectly reflects this case as bearing the case number 2:13-cv-0076-GMN-JNK, when the  
21 correct case number is 2:13-cv-0076-**JAD-NJK**.

22 To allow the defendant the opportunity to resolve these problems with this filing, and  
23 exercising my inherent power to control this docket, IT IS HEREBY ORDERED that  
24 Defendant’s Second Motion in Limine [ECF No. 160] is **DENIED** without prejudice to its
