16 The Local Rules require that any party “who has *reason to believe* that an action on file or about
17 to be filed is related to another action on file (whether active or terminated) *must* file in each action and
18 serve on all parties in each action a notice of related cases.” Local Rule 42-1 (emphasis added). A recent
19 filing in this case suggests that this case may meet the definition of a related case under Local Rule 42-1
20 with the parties’ previous case at 2:12-cv-01151-GMN-PAL. *See* Docket No. 40. To date, no notice
21 of related case has been filed. The Court directs counsel to review Local Rule 42-1 and, if counsel
22 believes the instant case may be deemed related to the previous case, a notice of related cases shall be
23 filed in compliance with Local Rule 42-1 no later than November 17, 2016.

24 IT IS SO ORDERED.
