## CODE OF ETHICS

The following Code of Ethics shall govern the conduct of all Executive Branch employees and officials.

- **I. Declaration of Policy**

It is hereby declared to be the policy of the state that no public official or employee of a state agency shall have any interest, financial or otherwise, direct or indirect, engage in any business transaction or professional activity, or incur any obligation of any nature which is in substantial conflict with the proper discharge of his or her duties. To implement this policy and to enhance the faith and confidence of the people of the state in their government, this code of ethics sets forth standards of conduct required of officials and employees of the Executive Branch in the performance of their official duties.

It is declared to be the policy of the state that public officials and employees are bound to perform their duties efficiently and faithfully under the laws of the state of New Hampshire. Such officials and employees are bound to observe the highest standards of ethics consistent with this code regardless of personal considerations, recognizing that promoting the public interest and maintaining the respect of the people in their government must be of foremost concern.

- **II. Definitions**

As used herein:

- b. "Public Official" shall mean a commissioned, unclassified or nonclassified executive branch employee but shall not include any commissioned, unclassified, or nonclassified elected by the legislature.
- c. "Public Employee" shall mean a classified employee of a state agency.
- d. "Conflict of Interest" shall mean a situation, circumstance, or financial interest which has the potential to cause a private interest to interfere with the proper exercise of a public duty.

- **III. Conflict of Interest**

Public employees and public officials shall avoid conflicts of interest or the appearance of a conflict of interest. Public employees and public officials shall not participate in any matter in which they, or their spouse or dependents, have a private interest which may directly or indirectly affect or influence the performance of their duties.

- **IV. Misuse of Position**

No public official and no public employee shall disclose or use confidential or privileged information for personal benefit or for financial gain. Public officials and public employees shall not use their positions with the government to secure privileges or advantages for themselves, which are not generally available to governmental employees, or to secure governmental privileges or advantages for others.

- **V. Acceptance of Campaign Contributions**

A public official or a public employee who is candidate for an elective office that is not subject to the reporting requirements of RSA 664 and who accepts a financial contribution or other form of political contribution from an entity which is or is likely to become subject to that public official's or public employee's duties shall make a disclosure of such contributions in writing on the form appended hereto, within five (5) days of receipt of such contributions, to the Secretary of State.

For one year after leaving office or employment with the state, a public official shall not appear as a lobbyist or as a paid advocate on behalf of any matter over which that official had personal and direct responsibility while in state government.

- **VIII. Supplemental State Agency Ethical Codes**

In addition to this Code, each state agency may promulgate a supplemental ethics code to address issues specific to that agency. In the event of a conflict, the provisions of this Code shall supersede the agency code. To the extent that this Code or an ethics code adopted by a state agency shall apply to classified employees, this Code, or an agency code, shall be interpreted to be consistent with the provisions of the classified employees' collective bargaining agreement.
