NOEL L. HILLMAN  
U.S. DISTRICT JUDGE

To: Honorable Hillman  
Mitchell H. Cohen Building & U.S. Courthouse  
4<sup>th</sup> & Cooper Streets, Room 1050  
Camden, New Jersey 08101

Re: Civil Action Number: 07-2867 (NLH), MDL No 1850

Dear Honorable Hillman,

I truly hope and pray that you will give consideration to the following when making your decision in the above referenced case.

- \* As viewed by law these "pets" were and are considered our companions and family members.
- \* The cheaper and deadly substances and ingredients killed our companions were used in a means of corporate greed and negligence.
- \* The unbearable thoughts and memories of the sickness and passing of our companions have left us with mental, physical, and emotional damage that will never surpass.
- \* There have been recalls in previous years that have also taken the lives of our animals. If all of this is not stopped by better regulations, guidelines, etc. Is the human race next to be poisoned?
- \* The companies did not even give an accurate number of sicknesses and deaths in this cruel act. Consider the people who did not even hear about the recall and wondered what happened to their companions.
- \* The used photo processing chemicals being used as "vitamin supplements"
- \* How do you answer the statement in the claim form, "what was the value of your pet," my companion was worth the world to me. And to watch her get sick, suffer, and pass away will always be on my mind. I will never forget that time of my life, it will always haunt me.
- \* Animals were sick long before the recall, some as far back as June 2006. These animals had been eating the contaminated food. The companies must be able to realize that. The dates are not accurate and do go back further than told.

These companies fully deceived the public with cruel intentions. I ask that you view these crimes with criminal prosecution to the fullest extent by law.

Sincerely,

A handwritten signature in cursive script that reads "Donna Elliott".

This was our love,  
Abby. She was sick  
when this picture was  
taken, she had been in  
bed in the for three days,  
diagnosed with renal failure.  
She had never been well before  
until she ate the contaminated  
feed. She had an MRI and was  
never checked for neurospirochetes.  
We had to give her antibiotics  
twice twice a day. She passed  
away 1-19-07. I truly believe  
the vaccine dates that they  
before listed the compensation.  
Our lives will never be the  
same without her!

12/3/2006
