Re: STC.UNM v. Intel Corporation
Civil No. 10-CV-01077

Dear Honorable Judge Brack:

On behalf of Intel Corporation, we are writing to advise Your Honor that Intel filed today its Motion for Summary Judgment [Doc. No. 178]. Intel believes the Motion, which establishes as a matter of law the unenforceability of the '998 patent STC sues on, is case dispositive. Respectfully, Intel submits that resolution of Intel's Motion does not require the Court to have any technical understanding or technical knowledge of the '998 patent in suit.

Intel respectfully submits this to the Court for consideration prior to the Friday, January 27, 2012 Tutorial.

Very truly yours,

ATKINSON, THAL & BAKER, P.C.

Clifford K. Atkinson
