Subject: our work (from Ann)

Work with retailers

1. Gail

1) Brings in wholesalers - 15% commissions

Problem - For this option, we need an affiliate program. Everyone brought by her when buying online or ordering offline, [will] have to note the affiliate, via which they come [to us].

2) Sells our designs [and] supplies on her site - coupon option. Separate coupons for designs and supplies.

3) Accepting payment by phone: There are 2 options:

1) PayPal terminal (only for this purpose, [for us to] calculate commissions). In this scenario she [will] copy items from DB into Comments at the time of making the payment of total amount by client's CC.

2) Using our new merchant account, plus affiliate program, for calculating commissions (in this scenario she [will] choose all items on our site, paying with clients' CC).

2. Wholesalers

Wholesale site [will be] located in a separate DIR or under a separate subdomain - wholesale.AnnABoveCollections.com

This dir [will use] a password, member receives a log-in. Wholesale prices for the items.

1) Thread:

2 prices with a 30% and 40% discount

30% - Minimum Quantity 10

40% - Minimum Quantity 20

2) CDs

1 price. Minimum quantity of 2 or 3 CDs per order (tell me how many you think is right)

Problem - We cannot offer a minimum order amount (first order or any order) through a shopping cart

When making payment, wholesalers must enter the *affiliate* under which they are working, to be able to calculate Gail's commissions, etc.  
If they order *offline*, we or Gail enter their orders using the online form, to be able to calculate the commissions

### 3. Drop-ship

We use "coupons" for every drop-shipper. Orders are placed from our usual site

- 1) Gail [will] receive 2 coupons - 1 *designs*, 2 *thread*. I.e., will have to pay for *designs* and for *thread* separately.
- 2) *Embroiderthis* and *Embellishments*, [will] receive 1 coupon for CDs.  
Problem - if they want to sell both CDs and supplies, then we must give them separate coupons for these categories, since the discount on them is different.
- But, if one order contains both [a] *CD* and *Thread*, they cannot pay for it together, and will thus have to pay shipping twice.
- 3) All new *drop-shippers* [will] receive a 20% discount regardless of the type of *item*. [Will] receive 1 coupon for everything. This will resolve all our *problems* in the future.

### Website Design

1. The main domain uniting all sites - *AnnaBoveCollections.com*  
[The] design is new, done by Inga for *abc-embroidery-designs*  
Every category [will be] under a separate domain.

- 1) *ABC-embroidery designs*
- 2) *ABC-cross-stitch-patterns*
- 3) *ABC-embroidery-fonts*
- 4) *ABC-embroidery-thread*
- 5) *ABC-free-embroidery-designs* - [will] have to be bought. A large *freebie archive* is located here.

6) *ABC-cross-stitch-charts* - [will] need to be bought. *Cross-stitch patterns for hand embroidery* will stay on this site. Possibly [we can] work with the same *shopping cart*, but the prices we offer for the charts are different from other sites and all items are entered separately.

2. *Wholesale site* - under a separate *DIR* or under separate *subdomain* -  
*wholesale AnnaBoveCollections.com*

The index will have the same text that *ABC-cross-stitch-patterns* have now under "become a retailer", plus *Categories:*  
become a retailer form

1. *Member login*
2. *About product lines (plus option order catalog)*
3. *Pricing*
4. *Delivery & Payment options*
3. *Try before* - (potential client may order *small kits, single items, "promotional CD", catalog*)

\* It is important to drive him[or her] from all these categories to the *retailer form*

After *login*, member will find himself [herself] in *wholesale catalog*, where [he/she] may order (see para 2. *Wholesalers*)

**Sale tools for the sites (the easiest ones to implement):**

- 1. *Grouping discount* This option can be offered permanently. We put *Minimum Quantity and volume discounts*
- For example: 3-5 items - 10%  
6-9 items - 15%  
10+ - 20%
- 3. *Discount for a purchase exceeding a certain amount*  
We put *Discount Amount and Discount Conditions*

**Problem:** 1 Paragraphs 1 and 2 may only work separately, because we cannot offer a *grouping discount* and a discount from the amount.  
I can see only one solution for this *problem* - to place the *items* that can be purchased by groups in a separate *dir*, [and] they must be introduced into a shopping cart separately and be strictly linked to their corresponding rules (and the coupon option [should] not be indicated here at all)  
I.e., these *items* are introduced into the *shopping cart* twice, with different rules  
2. *Problem with drop-shippers* - this will result in their ability to get another additional discount using their coupon, when the purchase exceeds a certain amount

3. *Coupons* with a discount for permanent *clients* (a small % for permanents)  
**Problem:** 1. These permanent discounts must not work together with paragraph 1  
**Offer** for 100K subscribers or for the "new site" opening.  
We open a "member club" We send discount coupons to our permanent clients And we give other users the option of buying this coupon I.e., any registered user will be able to buy % discounts good for a limited time  
Price may be different depending on %  
**Problem:** with option #2, since now we cannot offer both a permanent %, and an additional % for [purchase] amount

4 *Gift certificate* - we use the coupon option, i.e. the client receives a discount for \$X at the time of making payment  
We sell these *gift certificates*, i.e. this should be shown on the site as an *item*, after payment has been made we enter his [or her] number into the *shopping cart* and send it to him [her]  
We need to figure out what discounts for what amounts we can offer when a gift certificate is purchased.  
For example: \$25 = \$ 23.75 (5% discount)  
\$50 = \$ 45 (10% discount)  
\$100 = \$ 85 (15% discount)

**Problems:** In this scenario, client may also use Paragraph 2 - is this OK? I think it is  
Will not be able to use Paragraph 3 (and it's all right)  
5 % discount for certain items, e.g. *seasonal sale*. This % is introduced for a limited time  
**Problems:** In this scenario, client may also use Paragraphs 2 and (3 or 4)  
Paragraph 2 must either be inactivated while Paragraph 5 is being used, or we must carefully check out whether we can offer such a double discount for purchases exceeding a certain amount  
2. How this option will affect the clients receiving coupon options I.e., permanent clients with coupons for a permanent discount

as well as drop-shippers Will their % remain the same as usual, or will they receive another additional discount???

I do not see any more options with this shopping cart, if you have any ideas - throw [them] in

6 Our usual sale tools:

1 Designs CD for a purchase of thread - it works

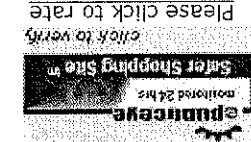

2. Buy 2 design packs and get 1 free (client's choice)  
Problem: there's a problem with an automatic mailing of free design set. It seems that this option will not work for us, too many problems.

3 Free design set for any purchase.  
Problem: 1. A free design set may be offered with a purchase of any downloadable set, then a link to the page to download a free set can be provided in a Custom Message by e-mail  
3 This item may also be introduced into the shopping cart with the price of \$0, so that the client could add it while making a purchase.
