To Whom It May Concern--

Anna Bove and Polina Dolginov have been advertising through my service, Embroidery Billboard, since the beginning of October of 2002. The first payment from them was received on September 27, 2002 and they have continually advertised through me from that date to the present. They run two web sites, ABC Cross Stitch and ABC Embroidery (<http://abc-cross-stitch-patterns.com> and <http://abc-embroidery-designs.com>). It has been a pleasure working with them to increase their sales.

ABC-cross-stitch-patterns.com is maintained by Anna Bove and Polina Dolginov.

The designs and digitising are produced mainly by Anna, and I prefer taking care of the site's technical side, although many things we do together.

Anna Bove not only maintains this site but also is a professional designer. She graduated from Bezalel Academy of Arts (Jerusalem) in 1995.

Anna says: "I don't really like calling cross-stitching "Craft". I extremely love this technique because it is the only one that allows me creating designs with smooth transition from one colour to another and making light and shade effects. Ready projects may look like real paintings".

E-mail: AnnaBove@abc-cross-stitch-patterns.com

Before we launched this site we realised we had a lack of knowledge in the field of internet business, so we decided to learn more about this and never regretted our decision. We went through a special e-commerce course (CEC) and got conscious about many aspects in internet privacy, security, copyright etc... and now are successfully using this knowledge.

Currently on ABC-cross-stitch-patterns.com we are only displaying a portion of the products that we carry. We will be adding more and more items as time goes by, so if you don't see what you are looking for, check back soon to see our latest crop or let us know what you are looking for.

We value greatly feedback from new and existing customers as it allows us develop to meet their requirements. Comments and enquiries on our product range are also welcome.

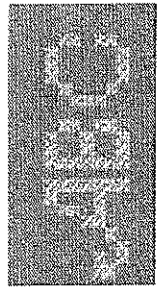

We intend our web site to be changing (hopefully improving !) continually as we have lots and lots of new products and ideas.

We hope you will enjoy stitching the designs as much as we enjoy designing them for you.

In threads category we may surprise you with two newly arrived HUGE kits- 100 cones metallics & 350 cones rayon! Visit thread pages to find out more...

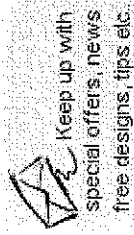

New embroidery designs, as well as some interesting related info about them:

Dear friends! This page will feature the latest collection of embroidery designs we release, and sometimes pieces of interesting (and perhaps not so interesting) information related to these designs. For example, we often find amazing historical facts about stuff we digitize. We love to share our findings, and you may read part of them here. We will also keep a small archive of previous pages in case they included some information that might be of interest at this moment. Thank you for your attention!

Violets are one of the most loved and cherished flower species over the world. Associated with spring and Easter, they symbolize faithfulness and watchfulness. But they're not only beautiful symbolic flowers. Violets have lots of medical, nutritional and folkloric uses among different tribes of Native Americans. It's a truly national American flower and is adopted as symbol by four states!

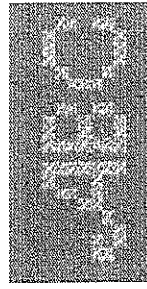

You're welcome to investigate the Violets designs in detail [here](#). These designs can help you do wonders and create an atmosphere of spring and joy in your home. Fantastic for decorating linens, pillows and kitchen stuff - this set has all the classic elements like wreaths, corners, etc...

Happy Stitching!

ABC-cross-stitch-patterns.com is maintained by Anna Bouve and Pauina Dolhinow.

The designs and digitising are produced mainly by Anna, and I prefer taking care of the site's technical side, although many things we do together.

Anna Bouve not only maintains this site but also is a professional designer.

She graduated from Bezalel Academy of Arts (Jerusalem) in 1995.

Anna says: "I don't really like calling cross-stitching "Craft". I extremely love this technique because it is the only one that allows me creating designs with smooth transition from one colour to another and making light and shade effects. Ready projects may look like real paintings".

E-mail: AnnaBouve@abc-cross-stitch-patterns.com

Before we launched this site we realised we had a lack of knowledge in the field of internet business, so we decided to learn more about this and never regretted our decision. We went through a special e-commerce course (CEC) and got conscious about many aspects in internet privacy, security, copyright etc... and now are successfully using this knowledge.

Currently on ABC-cross-stitch-patterns.com we are only displaying a portion of the products that we carry. We will be adding more and more items as time goes by, so if you don't see what you are looking for, check back soon to see our latest crop or let us know what you are looking for.

We value greatly feedback from new and existing customers as it allows us develop to meet their requirements. Comments and enquiries on our product range are also welcome.

We intend our web site to be changing (hopefully improving !) continually as we have lots and lots of new products and ideas.

We hope you will enjoy stitching the designs as much as we enjoy designing them for you.
