**EMBROIDERY THREAD KITS**

Click here to shop for Polyester Thread. Large variety of different kits for different needs.

**PREWOUND BOBBINS**

**Embroidery Bobbins:**  
a quality filament polyester thread for machine embroidery

Polyester embroidery thread is the most popular thread used for home and commercial machine embroidery, because it's strong, colorfast, durable in laundry and wearing, practically NON-shrinking and can be purchased in huge variety of colors. When comparing each of these five properties of polyester embroidery thread to parallel qualities of rayon and cotton, poly wins every time. It breaks less than the other two, doesn't fray, doesn't bleed, keeps it's color in heavy laundry, and can perform great without breaking even on very high embroidery speeds.
