SUPPLEMENTAL
DECLARATION OF POLINA
DOLGINOV IN SUPPORT OF
CONTERCLAIMANTS' MOTION
FOR A PRELIMINARY
INJUNCTION

I, Polina Dolginov, hereby declare and state:

1. I am a friend and former neighbor of Ana Bove, and I am not related to her or to the Mikhlyns.
2. I have been working with Ana Bove from the inception of the business in 2002 until we were both frozen out of the business in March of 2008.
3. I never left the business, nor did I ever intend to leave the business. The Mikhlyns' claims that I left the business and that I sold my share of the business are both patently false.
4. In the summer of 2007, after mounting pressure from the Mikhlyns, Ana agreed to put Vadim Mikhlyn in charge of some of the administrative duties for the business, which had previously been my responsibility. At that time, Ana directed the Mikhlyns to pay me \$30,000 -- for past work and in compensation for relinquishing my administrative responsibilities to Vadim Mikhlyn. The \$30,000 payment was never intended to be a buy-out of any kind.
5. If the Mikhlyns are correct that the \$30,000 payment was for the sale of my share of the "partnership" to Vadim Mikhlyn and Inga Mikhlyn then at a minimum the following should have occurred: all negotiations for the "buy-out" should have been held between the "buyers" (Mikhlyns) and the "seller" (me), payment for the "buy-out" should have come from the Mikhlyns' personal account and after such "buy-out" I should have left the business. However, the exact opposite actually occurred: i) negotiations concerning the \$30,000 were initiated by Ana; ii) the few payments that I received (totaling \$5,000) were made from the "Anna Bove Collections, Inc." business account; and I continued working for the business until Ana and I were frozen out in April of 2008. This clearly demonstrates that the \$30,000 payment could not have been a "buy-out."
6. Supporting the fact that Ana, not the Mikhlyns, negotiated the \$30,000 payment is an e-mail attached in Exhibit A hereto. The e-mail was sent by Inga to me and the relevant portion of the e-mail is translated as:

"Polina, it was you who originally discussed and negotiated the separation with Ann. All payment instructions for your work and your mother's work were given

to me by Ann. I followed them exactly the way I was told. You never had any negotiations with me.”

Thus, it is clear – and by Inga’s own admission -- that all negotiations concerning the \$30,000 emanated from Ana -- and not from the Mikhlyns.

7. To the extent I received any of the promised \$30,000 – it was disbursed from the “Anna Bove Collections, Inc.” business account – and not from the Mikhlyns’ personal account. Please see paragraphs 3-11 of the Supplemental Declaration of Ana Bove for detailed support of these facts.

8. In Exhibit B hereto, a number of e-mails are shown containing newsletters that I prepared pursuant to my work with the company and other work-related e-mails. As can be seen, the last e-mail was sent on March 25, 2008 – just prior to the time that both Ana and I were frozen out of our business

I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United States Code.

Dear ..., hello!
Email you the second part of fluffy flowers set

Design F10 - please do it like the F1 etc, but - 2 fluffy layers in large flower, 1 fluffy layer in medium flower, and the small flower - without fluffy stuff

Designs F11 and F12 - these flowers should be 3-D, and get embroidered like appliqué patches:

1. First the red and white flower patches are embroidered (on water soluble backing) separately, one near another (NOT one over another).
Also, please add a couple of stitches in the middle of each patch, to mark it's center.
2. Water soluble backing is washed away from red & white patches, and they are ironed (to dry).
3. A new layer of water soluble backing is hooped, and the blue flower patch is embroidered (also with a couple of stitches marking it's center).
4. The red & white patches are positioned over the blue patch, all center marks matching.
5. The fluffy middle is embroidered (2 fluffy layers, just like the pictures show).

Design sizes:

F11 - Height 4 92"
F12 - Height 4 92"

Subject: - Rayon thread & stunning designs with Asters

Dear friends, hello!

We have some wonderful news for all of you who've been waiting for RAYON thread.

The shipment have finally arrived, and a beautiful kit of rayon thread with 100 balanced color palette (exactly the same colors like in our best-selling 100-cone poly thread kit). The rayon is available for sale here:

http://www.abc-embroidery-designs.com/Rayon_Thread/

The thread is super fresh and strong - it was manufactured only 4 weeks ago and has just arrived to NY from the factory. Each cone includes 1100 yards of thread. So if you love rayon thread - it's the best deal, both in terms of quality and price. Be sure to check it out.

Also, we've prepared a gorgeous set with Asters designs, and a matching font

The asters are simply jaw dropping. The set is designed for making home decor items - cushions, roll neck pillows, lamp shades, table runners, curtains, wall hangings, table maps and so on. The half-drop design is also awesome for making a theater purse top

The designs are VERY festive, elegant and fast to embroider. You may be proud to show off an item with these embroideries :) Take a look at all the shapes here, to see what we mean:

http://www.abc-embroidery-designs.com/Machine_Embroidery_Designs/

You get the asters in 2 versions - a mono-color one, to do jumpless whitework embroidery, and a multi-color version for regular embroidery. Both can look gorgeous, and absolutely different. So each time just pick up the one that better fits the style of your current project

There is also a matching embroidery font with asters - it's exactly in same style like the designs. Great for personalizing gifts. You may get the font separately, OR, if you're getting the asters anyway - order them together in combo set, because it includes a built-in discount.

Here's a link for the combo:

<http://www.....>

And the separate font can be found here:

http://www.abc-embroidery-designs.com/Embroidery_Fonts_Embroidery_Alphabets/

That's all for today. Wish you a lot of fun with asters projects!

How are you doing? Hope that everything is well

We've finished a new set of Christmas designs, and wonder -
would you be able to do another quilt project for us with those designs?

The set includes 12 patch squares for quilt blocks. They may be embroidered as
patches on applique fabric base and then attach to quilt, or embroidered the regular
way, by omitting the first two threads. In any colors you feel right. Here is a link:

Could you please scale all designs to 80% of the original size we requested? Thank you so much!

Subject: Anich, How to Write Designs to Floppy Disks for Designer 1

How to Write Designs to Floppy Disks for Designer 1

Manual for Owners of Husqvarna Software

This tutorial is for you ONLY if you own the Husqvarna software. If you don't - you may just stick to buying designs in SHV format, and using this manual to write them to floppy.

So if you've got the software and want to learn using it to write designs to floppies - let's get started:

Step 1 - Formatting Your Floppy:

This is the most important step. Every time before you want to write designs to floppy disk for Designer 1, the floppy MUST be formatted first. EVERY TIME. Even if that floppy has been formatted earlier!!! Most often, if designs don't seem to load on your machine, it's because of the floppy disk itself. Either it's bad, or was not formatted properly.

How to format:

1. Go to "My Computer":

1.jpg

2. Select drive "A:." (click on it once using the left mouse button, until it's marked in blue). Click on the right mouse button. A menu will open.

Choose "Format" in that menu:

2.jpg

3. A small formatting window will open. Check the "Quick Format" checkbox on it, and click on the "Start" button:

3.jpg

4. Windows will display a warning, explaining that if you format the floppy, all information that currently exists on it will be lost. Click "OK"

4.jpg

5. When formatting is complete, click "OK":

5.jpg

Now your floppy is ready for writing a new portion of designs to it. So let's move to using the Husqvarna software.

Step 2 - Writing Designs to Floppy with Disk Manager:

1. Via the Start menu on your PC taskbar, open the Husqvarna/Viking "Disk Manager" software:

6.jpg

2. Each Designer 1 floppy has 4 "MENUS". Each menu can include up to 36 designs on it. The floppy is divided to menus to let you better see each design on the machine's touch up screen. The less designs you add to a single menu, the larger they will show up. The menus are also useful for sorting designs that look quite similar. For example, if you have a certain design in 3 different sizes, it may be convenient to put each of its versions under a separate MENU, to avoid mix ups.

Ok, now when you know what a MENU is, click on "Menu 1" button (where you see the red circle). This way you

select Menu #1 for adding designs to it:

7.jpg

3. Click "Open":

8.jpg

4. Navigate to the folder that stores the designs you plan to write to floppy, and select up to 36 designs to be added to "Menu 1". You may add many designs at once. fioletovyi - Night Sky Font / Christmas Star Font / Diamond Rings Font

This satin stitch initials font features all 26 capital letters for ...-inch hoops. The letters are done in shiny satin stitch, and embellished with beautiful star br acelets.

This alphabet is perfect for embroidery on towels and bath robes because the letter elements are wide, and stand out on terry cloth.

To make the letters look even more festive, consider stitching the star bracelets in metallic thread (just an idea) ..

sinyi - Lafayette Initials

This one is classic. The heraldic style of these initials makes them suitable for almost any purpose. The font may be used for men, ladies and children. It's only one color, pleasant to embroider and has an expensive, luxurious look. Use it on guest towels, hankies, lady bags, robes, cushions etc. It's a must have font because it's so universal. Adjust the color for your purpose, choose one of the 2 available letter sizes, and that's it.

s tsvetochkami - WildRose Scent Font / Fancy Old English

This heirloom alpha is clearly for ladies. It's gentle and fancy, perfect for embroidery on lucrative materials. It will look stunning on silk, for example. Another option is to use only one color for all the elements, and do a whitework project with it. Great for guest towels, ring bearer pillows, gift diary cover, night gown case or any other lady accessories. Each letter comes in 2 sizes, so each time you can pick up the one that fits your current project best.

New in Supplies - Thread Nets

We've added a new type of embroidery supplies to make your life easier - thread nets. Thread nets are great to stop thread looping while you are embroidering, AND to stop thread from unwinding when it's not being used.

Thread nets are A MUST to use with metallic thread, because almost all brands of metallics have tendency to unravel, spring and loop when you're trying to stitch a design. To solve this issue, just wear a plastic thread net on your cone, and the thread will come out evenly

It's also nice to store all thread cones in nets, constantly, to avoid thread from unwinding. This way the thread stays where it should be, and when you want to embroider, it unwinds evenly and doesn't loop. Very convenient. You may get some thread nets here - they're available in 4 different size packs --->

NEW TIPS - Easy Trouble-Shooting in Machine embroidery

Everyone has some kind of embroidery issues from time to time - thread looping, thread breaks, fabric puckering and so on. That's why we've made a special trouble-shooting page, to help you out in hard times

Just look for the symptom you face, and try our list of solutions, one by one. We share some great tips & tricks there. Even if you're an experienced embroiderer, bookmark the page. Sometimes we all need a little "cheat" to fix a problem fast. Here's a link --->

DESIGNS IN YOUR FAVORITE TECHNIQUES NOW ON SALE!

Cross-Stitch Embroidery Design Sets

Machine cross stitch technique allows to create natural-looking, yet lightweight embroideries. If you'll try to make detailed, naturalistic designs in regular embroidery, they will be quite dense and heavy. With cross stitch it's the opposite.

That's why we've designed plenty of beautiful natural-looking flowers exactly in this technique. And they're all project-oriented. If you get one set of flowers, you can create a whole bunch of different but matching items with it.

You may find all cross-stitch sets here --->

Free-Standing Lace Design Sets

If you love lace, or just want a way to make fast, festive in-hoop gifts, be sure to check our lace designs category

Lace designs should be embroidered on water-soluble fabric, and when the fabric is dissolved in water, the embroidery stays and keep it's shape. Lace designs are very easy to embroider, once you know how, and have good supplies. They require water soluble backing, non-stretchy poly thread, and preferably pre-wound bobbins in matching color.

To see all lace design collections, click here ---->

Cutwork Designs in Cutwork-Lace Technique

If you're not sure what cutwork is - it's a really special combination of embroidery and decorative cutting. Cutwork is often used on cotton lingerie and on expensive bed and table linens.

If done by hand, cutwork can be quite a complicated and time-eating technique. Fortunately, with properly digitized designs you may now make stunning cutwork in no time, without any special skills. Just be sure to read our tips, and get some water-soluble backing, poly thread, prewound bobbins and of course, cutwork designs.

You may find all cutwork design sets here --->

Applique Embroidery Designs

Applique designs have a special country-style charm. Properly digitized appliques are almost entirely done by your embroidery machine - the technique can be handled by a 10 year-old. You may take a look at a few ready applique projects here.

It's also a great technique to embroider LARGE designs FAST, and save plenty of thread. Really nice for making quilts, huge cushions, stuff for kids etc. We offer plenty of applique stuff for spring and Easter as well, so be sure to check them out.

You may find all applique design sets here --->

Subject: TEXT: new Victorian designs & M-size bobbins

Dear friends, hello!

If you like antique-style embroideries from the Victorian era, today is your day.

There is a new set of designs ready - it's in Victorian style, and includes 22 amazing shapes. Each of these patterns may either be used separately, or combined together like lego to create huge compositions - frames, borders and other ornaments.

It's a great collection for decorating tableware items, home decor stuff and even clothes. Take a look at the designs here:

<http://www...>

Also, you may purchase this new collection within a COMBO pack that features all 3 of our Victorian style sets - "Victorian Decor 1", "Victorian Decor 2" and "Victorian Frames"

The combo saves you 30% of the price, and you get 51 designs at once!!! Here's a link to "Victorian Combo" page:

<http://www...>

Since the new Victorian designs allow so much more options when you combine them together, we've prepared a special page that shows how to embroider designs exactly where you want them to be. Naturally, we've used Victorian designs as an example in this tutorial:

<http://www...>

Also, there is some wonderful news for owners of commercial embroidery machines

Finally, there are M-size prewound bobbins available. If you own a commercial machine, you may immediately stop winding bobbins, and get them ready, pre-wound for you.

Prewound bobbins can help you save plenty of time for your business. Also, ready bobbins tend to work significantly better than ones that your machine can wind, because they are wound tighter and better. Each M-size bobbin includes amazing 274 yards of quality, long-fiber poly thread. No "home made" bobbin can beat this!

The new M-size bobbins are available in 144-units pack [HERE](#):

<http://www...>

Of course, if you own a home machine you're even better off, because home L-size bobbins are available in 24 different colors. You may see and get them via this page:

<http://www>

That's all for today. Hope you will like the new designs. Happy stitching!

P.S.

Subject: for eBay - Water Soluble Stabilizer Fabric

Water Soluble Stabilizer Fabric

You're bidding on a roll of top quality water soluble fabric-feel backing. The roll contains 100 yards of 10-inch wide stabilizer. You may cut exactly the piece you need, and thus the roll will serve you much longer than pre-cut pieces.

This type of backing is the best choice for embroidering standalone lace designs and cutwork designs. It's also great to use with organza, baby clothes or any other thin fabric, when you'd like to wash the stabilizer completely when embroidery is finished.

This stabilizer dissolves easily in warm water, and is very user friendly. It doesn't stretch, and sits great in hoop, without moving or slipping.

Water Soluble Fabric for Cutwork & Lace Designs

By visiting our Cutwork category, you may find many more fonts and designs in this intriguing technique.

If you're not sure what cutwork is - it's an antique method of embroidery, that involves cutting holes into embroidered fabric, to create a beautiful translucent effect.

Fortunately, now cutwork designs may be done on embroidery machine. And when you have quality designs digitized especially for cutwork,

you can achieve absolutely fantastic results right away. If you can embroider a regular design, you can do fantastic cutwork because machine does almost everything for you.

Machine cutwork is done with the help of water soluble backing, which is used to allow your machine to stitch beautiful satin stitches around each hole. Then the backing is washed away, and you get your embroidery. (Detailed instruction is included with designs)
