Could you pay less?

 Over the next 12 months

Gas personal projection: £281.29

This calculation uses a mix of UK typical consumption (3,100kWh electricity and 12,000kWh gas) and estimates of your own usage last year based on available information. It includes our current prices, as well as discounts or charges, like VAT. Your Deemed prices may go up or down.

★ Our cheapest variable tariff

Over the next year you could save **£16.82** by choosing Direct Debit with *Standard (Variable)*, our **cheapest variable gas tariff** available for your meter.

★ Our cheapest overall tariff

Over the next year you could save **£30.07** by choosing Direct Debit with *Easy Online Jul19v2*, our **cheapest fixed gas tariff** available for your meter.

Accurate as at 11 Jun 2018. Please note, we frequently withdraw and launch new tariffs, so whilst the cheapest tariff we have shown was available on sale at the time we processed this bill, this may have changed.

Remember - It might be worth thinking about switching your tariff or supplier.

Please note that different tariffs may have eligibility criteria, limited availability, different terms and conditions or require a meter exchange.

For more about your current tariff, see page 2.
