**PLAINTIFF CITY OF NEW YORK'S PHASE II TRIAL EXHIBIT LIST
(EXHIBIT 3 OF THE PROPOSED PRETRIAL ORDER)**

Plaintiff the City of New York (öthe Cityö), by and through its attorneys, SHER LEFF LLP, hereby makes the following pretrial disclosure of trial exhibits for Phase Two. With this filing the City does not waive any right it may otherwise have to supplement or amend its exhibits.

The City lists 2136 exhibits for its case-in-chief for the trial of Phase Two. The exhibit list also includes 3 appendices, which contain voluminous documents the City hopes to largely avoid introducing at trial through stipulation with ExxonMobil. Appendix A contains documents related to the site remediation files for the contamination sites in the RGA, such as records of water sampling and spill reports at the sites. Appendix B contains documents related to volumes of water pumped from the City's wells, such as daily pumping logs. Appendix C contains water quality data, such as lab reports of contaminant levels in water samples. Should stipulations be

reached as to the admissibility of the information contained in the Appendices, the City would expect to introduce a small number of summary exhibits as well as a small subset of the original documents listed in the Appendices and will update its exhibit list appropriately at that time.
