Case Clip(s) Detailed Report

Robert Larkins Deposition

Tuesday, September 08, 2009, 12:55:49 AM

05 recommendation we see.
06 BY MS. EVANGELISTI:
07 Q. Are you saying Exxon didn't
08 have the resources to follow that
09 recommendation as described by Barbara
10 Mickelson?

21. PAGE 439:14 TO 439:14 (RUNNING 00:00:01.677)

14 A. No, I'm not saying that.

22. PAGE 439:24 TO 440:09 (RUNNING 00:00:25.100)

24 A. I don't know that she
00440:01 recommended a nationwide assessment. She
02 said in order to provide one, she would have
03 to get contract help. Nationwide meant
04 everywhere. We were considering addition in
05 limited areas. So I don't see a
06 recommendation necessarily that we needed to
07 start right away a nationwide assessment
08 because we were making the decision to
09 introduce it in a limited area.

23. PAGE 461:14 TO 461:21 (RUNNING 00:00:22.633)

14 Q. At the time that you approved
15 the use of MTBE in Exxon gasoline, you were
16 aware that that gasoline was going to be sold
17 to and stored by entities that owned stations
18 that did not have the resources that Exxon
19 had in terms of addressing underground
20 storage tanks and things of that nature; is
21 that right?

24. PAGE 461:24 TO 462:02 (RUNNING 00:00:05.604)

24 A. I certainly knew that some of
00462:01 them had less resources than Exxon. Exxon is
02 a very large corporation.

25. PAGE 467:23 TO 468:04 (RUNNING 00:00:13.247)

23 BY MS. EVANGELISTI:
24 Q. And Exxon at that time made no
00468:01 effort to even inform station owners that
02 MTBE was in the gas; is that right?
03 A. I don't -- we didn't uninform
04 them. They -- MTBE was in -- in the

26. PAGE 477:04 TO 477:15 (RUNNING 00:00:26.565)

04 Q. So to be clear, Exxon had a
05 choice when deciding how to address the
06 octane issue in their gasoline as a result of
07 the phaseout of lead, they could have used
08 ethanol MTBE or they could have changed the
09 base gasoline in terms of how they refined
10 it; is that right?
11 A. Those are the broad
12 alternatives, I would agree.
13 Q. And at that time frame, others
14 chose to use ethanol; is that right?
15 A. Some. Some did.
