Hey Pete --

The review is complete! Well, almost. Chris and I went through the 1,057 links you provided and green-lit 923 of them. Nice job; that is a huge amount of stuff. You can see the master content list in the AC folder if interested.

So, we need 77 more links to get to 1,000 for launch.

Some of those can definitely come from the cut list. There are 137 links on that tab of the attached spreadsheet. Will you go through these, look at the comments, and see if there are any here that can be salvaged? For example, if one URL for a certain piece of media is no longer working, maybe you can find it on another site. Etc.

Note -- we've standardized categories. When you are adding stuff please assign a category (or two or three) from this list only: Ads, Animals, Caught on Tape, WTF, Jackass, TV, Movies, Music, Video Games, Animation, Spoof, News, Sports, Cool, Politics, Celebs, Art

Deadline: Thursday night / Friday morning? Feel free to work directly in this spreadsheet and find a way to note the items you've updated and should be ready for publishing. We can touch base in the morning -- might help to sync up before you start.
