Hi, Tim,

Just left you vmail on cell. If you feel like you have to engage with =iacom, that's your choice of course but pls hold firm.

Eric wants us to run new numbers for everyone. Close with CBS and turner =irst. So we need to slow-roll on Viacom.

Eric and Omid would rather not but are ok with the prospect of losing =hem in order to avoid an irrational deal. They're also more comfortable =ith the prospect of losing other premium content (should this =cb/viacom/fox thing pan out). We don't think it will affect gv/yt =raffic and prospects.

Happy to discuss. Hope you're doing well!

Dave
