PRIVILEGED AND CONFIDENTIAL

- 1665 of the clips retrieved on youtube were smaller than our criteria and therefore not taken down. 435 of those were South Park. It is difficult to reconcile this number with the information on the size of clips because they were collected at different times, but it appears that the majority of those not taken down were probably less than 1:30 minutes.
- There were [redacted] viewer hits [redacted], and 3,300,935 on those not taken down.

As always, call or email with questions.
