dhirkmeister don't use the name of God for your personal interest, like promoting your presidential candidate. I'm just wondering, why do you think Eddie Villanueva was the one who was chosen by God to be president? Which by the way, has a 1% chance to be voted as president. 4

Tanuchi88 the church should not be involved in politics unless they pay taxes like everyone else. philippines catholic church is corrupt as the philippines government. 4

Customers

More than 1300 of the world's most imaginative companies rely on Limelight Networks.

Customer Spotlight

"Across all of our properties, depending on any events, traffic can range between 5 - 10 billion hits per day. It's significant. Serving that sort of traffic is no easy feat and we certainly could not do it without the help of a CDN like Limelight."

-- Daniel Brunstein, Director of Online Operations, MTV Networks

Brilliant bits

To ensure the best possible
user experience, Limelight
uses a variety of tools to
identify and optimize page
load times, including
AdWords ranking.

"Limelight Networks' support of Silverlight is a significant endorsement of the rich and flexible capabilities inherent in our platform approach. Limelight Networks already has a broad base of customers taking advantage of industry-leading Windows Media technologies; and by incorporating Silverlight, they'll be able to seamlessly enhance their existing media solutions to offer content providers rich design and interactive capabilities."

Forest Key, Director of User Experience and Web Platform, Microsoft Corporation

"The Limelight Networks CDN provides world-class streaming performance, and our partnership with them will enable us to offer unmatched safe streaming solutions to home movie makers through our convenient and affordable flat-rate service. Streaming is the ideal mode for sharing personal and family content and Limelight has an outstanding track record in the industry for highly reliable delivery of streaming content."

Cary Marsh, Managing Director, Mydeo

"The Limelight Networks platform has demonstrated it can easily support our biggest audiences, with viewership peaking at levels we had not seen before. Our success in delivering free live video to over 100,000 unique simultaneous users demonstrates the power of the Internet to deliver breaking news to enormous audiences in real time as events unfold."

Charlie Tillinghast, General Manager and Publisher, MSNBC.com

"We originally chose Limelight Networks as our CDN provider for Shrek 2 because we knew the volume would be huge. The Limelight Networks platform's performance, scalability, and reliability were so impressive that we have now deployed it for use with all of our current and upcoming properties."

Abe Wong, Head of Information Technology, DreamWorks

"The penetration of broadband and 3G networks, especially in developed markets, gives us the ability to distribute rich content, including long-form video, to consumers worldwide, even markets which traditional media has not been able to penetrate. We are proud to partner with Limelight Networks and are happy to announce we have received a phenomenal response, having already crossed 4 million video streams within a fortnight."

Rajjat A. Barjatya, Managing Director, Rajshri Media

"We're eagerly anticipating this year's Super Bowl, and we're confident that we will be able to drive this year's increased ad traffic seamlessly. Thanks to the Limelight Networks platform, we are prepared for dramatic traffic surges and look forward to delivering on our traditional Super Bowl experience."

Blair Harrison, CEO, IFILM

"Based on our extensive testing with Limelight Networks, our download performance of large files was at least two to four times faster, especially noticeable in Asia and Europe."

Steven Chui, Senior Manager, Online Architecture, Electronic Arts

"When growing the GameShadow service, it became clear that we had a reputation to uphold and our original file serving system was beginning to show strain under the load. We needed a scalable and high-performing multi-access-point network that would allow all of our customers worldwide to experience the best possible delivery speeds."

Tony Treadwell, COO and Founder, GameShadow

Hauprich?

MR. GOEKE: Yes.

A. No.

14:27:45 Q. Did either of your
assistants have any technical
difficulties using the program?

A. Not that I am aware of.

14:27:57 Q. Did the use of that program
allow you to more readily identify
Cherry Lane works for notice and
takedown?

MR. HART: Object to the
form of that and legal conclusion.

14:28:11 A. More readily identified than
what?

Q. Than using the manual
process that you described before.

A. I think that's a fair
14:28:32 assessment; that it is more readily
accessible.

Q. Did you ever have an
instance that you are aware of in which
a takedown notice that you provided to
14:28:46 YouTube was not responded to within

1 KEITH HAUPRICH

2 24 hours?

3 A. Because content infringement
4 is so prevalent, I don't monitor
5 14:29:03 individual response time.

6 Q. So do I understand you to be
7 saying you don't know how long it took,
8 in any instance, for your takedown
9 notice to be responded to by YouTube?

10 14:29:20 A. I think that to be a fair
11 and correct statement, yes.

12 Q. Sitting here today, do you
13 have any complaint with respect to the
14 length of time it takes YouTube to take
15 14:29:33 down content that you have identified
16 for notice and takedown?

17 MR. HART: I am going to
18 object to the extent that the
19 question may imply issues that go
20 14:29:45 beyond simply this content
21 verification tool.

22 A. Can you repeat the question,
23 please.

24 Q. Sitting here today, do you
25 14:29:56 have any complaint with respect to the

length of time that it takes YouTube to
take down any content that you have
identified for notice of takedown?

14:30:04 MR. HART: And you means
you, Keith Hauprich.

Q. You means Cherry Lane.

MR. HART: I maintain my
objection, including foundation
and prior testimony.

A. Specific URLs are taken
down. Excuse me, specific URL's are
taken down. That doesn't keep the
video or video clip off the site. And
14:30:47 it doesn't keep all use of my songs by
title off the site.

Having said that, YouTube
takes down -- I believe, URLs are taken
down, excuse me, I don't believe I have
14:31:08 an objection as to the length of time
it takes YouTube to take down a
specific URL. My objection goes to the
reappearance of the content under a
different URL or the prevalence of the
14:31:17 same title and different video clips.

throw off your flow but we are
coming up on another hour. Are we
at a reasonable juncture?

MR. GOEKE: That's fine.

MR. HART: Good.

THE VIDEOGRAPHER: The time
is 2:31 p.m., and we are going off
the record.

(Whereupon, an
off-the-record discussion was
held.)

THE VIDEOGRAPHER: The time
is 2:48 p.m. on November 4th,
2008. And this is tape number
four.

MR. HART: By the way, since
we are on the record, I have a
statement that might help you.

was indeed produced to you. It is

Research interests

- Causal inference in marketing research
- Statistical issues in postal rate making
- Likelihood methods

Professional activities

Member of the National Academies' committee on the USO and the Postal Monopoly of the US Postal Service. 2008.

Invited Session Organizer for the Joint Statistical Meetings, Baltimore. August 1999. Session title: "Blending Statistics and Economics to Estimate Marginal Cost in a Large Multiproduct Firm – A Case Study From the U.S. Postal Service".

Invited Session Organizer for IMS/WNAR meeting, San Diego. June 1998. Session title: "Likelihood methods".

Reviewer for Journal of the American Statistical Association, The Annals of Statistics, Journal of Computational Graphics and Statistics, Journal of Educational and Behavioral Statistics

Thesis

Title: A theory of projective scores, including approximations to conditional scores.

Committee: Dr. B.G. Lindsay (Chair), Dr. C.C. Clogg, Dr. C.R. Rao, Dr. W.L. Harkness, Dr. D. Fong.
