 Subject: Re: MAGIX Corp. - December 5 meeting

Redacted Pursuant to
 Protective Order at
 Request of Defendants

Just to be clear to everyone: Steve Chen, Franck, and the collective engineering teams have the call here of course. And the current plans are roughly for Audible Magic for now and the in-house Google fingerprinting technology going forward.

some of these external inbounds (Gracenotes, Aurix, MAGIX, Tunesat, Attributor, ...) are being handled as a matter of courtesy and just keeping abreast of what's in the market. (i.e., no one is thinking about any sort of bake off with multiple 3rd party fingerprinting vendors ...)

Stephen
