*This submission does not include 35 timekeepers who have billed less than 100 hours each, representing 998.4 hours worked.

**For associates (and Eli Glasser, who was promoted to counsel in December 2012), lodestar was calculated based on the associate's current rate for the associate's seniority level at the time of billing. The rate indicated is the associate's average hourly rate (lodestar amount divided by hours worked). For all other positions, the lodestar amount was calculated using the timekeeper's current discounted rate, and the rate indicated is the current discounted rate (10% discount).
