COMBE, RAYMOND GESTELAND, JAMES U.
JENSEN, JOHN KENDALL MORRIS, THOMAS PARKS,
DAVID W. PERSHING, and MICHAEL K. YOUNG,
in their official capacity as Directors of the University
of Utah Research Foundation,

DECLARATION OF
Mark Sobel

Defendants.

-----X

I, Mark Sobel, declare under penalty of perjury:

1. I am the Executive Officer of the Association for Molecular Pathology (AMP),
one of the plaintiffs in this case.

2. AMP is a not-for-profit scientific society dedicated to the advancement,
practice, and science of clinical molecular laboratory medicine and translational research
based on the applications of genomics and proteomics. AMP members participate in
basic and translational research aimed at broadening the understanding of gene/protein

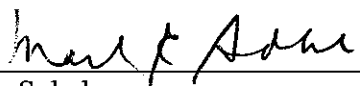

structure and function, disease processes, and molecular diagnostics, and provide clinical medical services for patients, including diagnosis of breast cancer.

3. AMP has brought this case on behalf of its members some of whom are ready, willing, and able to engage in research and clinical practice involving the *BRCA1* and *BRCA2* genes if the patents are invalidated. One or more AMP members are submitting separate declarations concerning their ability to engage in research and clinical practice now prohibited by the patents.

4. This case seeks to invalidate broad gene patents such as those listed in the Complaint. That interest is germane to the purposes of AMP. One of AMP's purposes is to enable its members to advance human understanding of genes. The patent impedes that purpose. Another purpose of AMP is to ensure that the patients for whom our members are responsible receive high quality, accurate tests when necessary. The patent impedes that purpose.

5. Over the years, AMP has issued or signed statements concerning gene patents as a regular part of its mission. See e.g. http://www.amp.org/Gov/AMPSACGHS_GenePatents_Final_051509.pdf (visited July 30, 2009).

I declare, pursuant to 28 U.S.C. § 1746, under penalty of perjury under the laws of the United States, that the foregoing is true and correct to the best of my knowledge and belief.

Mark Sobel

Executed on August 14, 2009
