4	So comparisons were made by virtue of	10:53:56	4	you explain that?	10:56:38
5	the fact that Arthur would report the Madoff	10:54:00	5	Q. Well, did anyone at at Stamos	10:56:38

7	report the SSP returns. So there was comparison at	10:54:04	7	strategy?	10:56:46
8	all times.	10:54:08	8	A. I wouldn't know what they did on a	10:56:48
9	Q. Okay. And generally speaking,	10:54:08	9	daily basis at Stamos.	10:56:50
10	what what were the results of those comparisons?	10:54:12	10	Q. Pardon?	10:56:52
11	A. There were many, many different funds	10:54:14	11	A. I wouldn't know what they did on any	10:56:52
12	in Sterling Stamos, from very liquid to to very	10:54:16	12	basis at Stamos, what they did.	10:56:54
13	long-term. So there was a whole range of potential	10:54:24	13	Q. Okay. But I'm just asking you if you	10:56:58
14	yields.	10:54:28	14	know if Stamos ever did any analysis of Madoff's	10:57:00
15	Q. And were those yields then compared	10:54:30	15	investment strategy.	10:57:04
16	to the Madoff yields?	10:54:32	16	A. I have no idea. I do not know.	10:57:06
17	A. It wasn't compared. It was just you	10:54:34	17	Q. You do not know, okay. And you	10:57:08
18	have a discussion about Madoff, and then three or	10:54:38	18	certainly did not strike that.	10:57:10
19	four issues later, you have a discussion about SSP.	10:54:40	19	So you did not have any discussions	10:57:14
20	So if people made comparisons in	10:54:42	20	with anyone at Stamos concerning any analysis of	10:57:16
21	their mind, I can't tell you if they did or didn't.	10:54:46	21	Madoff's investment strategy?	10:57:18
22	But they were they weren't necessarily	10:54:48	22	A. No analysis, no.	10:57:20
23	discussions, oh, Madoff did this and SSP did that.	10:54:52	23	Q. Okay. Any discussions concerning	10:57:22
24	Q. That's what I'm asking.	10:54:56	24	any any due diligence of Madoff at all with	10:57:28
25	A. Right. There weren't you know, if	10:54:58	25	Stamos?	10:57:30

1	there were, I can't recall any. But people probably	10:54:58	1	A. No.	10:57:30
2	thought about it in their minds.	10:55:02	2	Q. Okay. Was the topic of Stamos's	10:57:32
3	Q. And what was your recollection of how	10:55:04	3	analysis or due diligence of Madoff ever raised at a	10:57:40

5	returns?	10:55:12	5	MS. SESHENS: Objection to the form.	10:57:46
6	A. Madoff returns were slightly higher,	10:55:12	6	A. Not that I ever recall, no.	10:57:50
7	not much, than the funds of a similar nature that	10:55:18	7	Q. If you wanted to if you wanted to	10:57:54

13	Q. I'm confused.	10:55:36	13	to know if Stamos had ever done any analysis or due	10:58:12

18	It was a higher liquidity fund. So	10:55:52	18	have you ever done it? I don't have access to any	10:58:28

1	MS. SESHENS: Objection to the form.	11:03:44	1	believe it was the bank who called me and said, you	11:06:10
2	A. There were several changes in the	11:03:48	2	know, it's time to renew, it's time to extend.	11:06:14
3	document, the plan document. So I don't know what	11:03:50	3	Q. And after the bank called you to tell	11:06:18
4	the original one said versus the one today says.	11:03:52	4	you that it was time to renew the loan, did you then	11:06:22
5	So it's it's difficult for me to	11:03:56	5	have a discussion with other folks at Sterling to	11:06:26
6	remember which one said what. But over over	11:03:58	6	get a better understanding of the loans?	11:06:30
7	time, it discussed the strategy of investing.	11:04:02	7	A. It's a pretty simple concept. You	11:06:32
8	But I don't know if that was the	11:04:06	8	know, you put a dollar in, you borrow a dollar, you	11:06:34

13	A. Okay.		13	Q. Okay. And did there come a time when	11:06:46
14	Q later today.	11:04:14	14	you created new double-up loans?	11:06:54
15	Did you have any job responsibilities	11:04:22	15	A. Yes.	11:06:58
16	with respect to Madoff investments in any way?	11:04:24	16	Q. Okay. When did that happen?	11:06:58
17	A. Only on a tangential basis when I did	11:04:32	17	A. I can't be specific, but there were a	11:07:02
18	my financings that involved a Madoff account. But	11:04:40	18	number of new double-up loans that would come from	11:07:04
19	the firm's relationship with Madoff was something I	11:04:42	19	time to time whenever funds were accumulated,	11:07:14
20	never went near. It was always Arthur, Saul and	11:04:46	20	sufficient funds were accumulated to do it, that	11:07:16
21	Fred who had that relationship.	11:04:50	21	made sense to do it.	11:07:18
22	Q. Okay. Now, explain to me how the	11:04:52	22	Q. And when you're referring to funds	11:07:20
23	financing that you that you were involved in, how	11:04:58	23	accumulating, are you referencing funds accumulating	11:07:22
24	the Madoff investments played a role in the	11:05:00	24	within the Madoff accounts or some other source of	11:07:24

And that was based on on the excess analysis? A. It was I don't know what the excess analysis is, but it was based upon that person's understanding of what their needs were, short-term, long-term. And based upon that, you can say I can put away X dollars for a longer period of time. Q. Well, what I mean by the excess analysis is what you were referring to earlier, that you said that there were excess funds that were then pooled. A. Right, okay. I don't know if it was a formal analysis versus a thought process that went through each person's mind. 	11:11:54 11:11:58 11:12:00 11:12:02 11:12:04 11:12:04 11:12:08 11:12:10 11:12:12 11:12:14 11:12:16 11:12:18 11:12:20 11:12:22 11:12:20 11:12:30 11:12:36 11:12:36 11:12:38 11:12:42
