“The most realistic look yet at astronaut life.”
—*Chicago Sun-Times*

The All-American Boys is a no-holds-barred candid memoir by a former Marine jet jockey and physicist who became NASA's second civilian astronaut.

Walter Cunningham presents the astronauts in all their strengths and their weaknesses in this dramatically revised and totally updated edition of a book that was considered an instant classic in its first edition over two decades ago. From its insider's view of the pervasive “astropolitics” that guided the functioning of the astronaut corps to its thoughtful discussion of the Columbia tragedy, *The All-American Boys* resonates with Cunningham's passion for humanity's destiny in space which endures today. This is not just a “tell-all” book. It is also a story of the triumph of American heroes. Cunningham brings us into the NASA training program and reveals what it takes physically and mentally to be an astronaut. He poignantly relates the story of the devastating Apollo 1 fire that took the lives of astronauts Grissom, White, and Chaffee and his own later successful flight on Apollo 7.

This new edition includes an update of the manned space program and his “tell it like it is” observation of NASA's successes and failures. It also includes commentary on the Shuttle disasters of Challenger and Columbia and his views on what NASA should be doing to get back on track and to regain public support.

FICTION

THE PYTHAGOREAN SOLUTION COMBINES THE HISTORY
AND MYSTERY OF *THE DA VINCI CODE* WITH THE
SUSPENSE AND ADVENTURE OF *THE BOURNE IDENTITY*

When American John Hammond arrives on the Aegean island of Samos, he finds Peter Vangelos, a Greek fisherman, lying mortally wounded in an alley. Vangelos hands off a coded map to Hammond, suddenly involving John in a decades old mystery dealing with the whereabouts of a Turkish tramp steamer that sank in a storm in 1945, carrying a fortune in gold and jewels. Also on board this boat, in a waterproof safe, were documents implicating a German SS Officer in the theft of valuables from Holocaust victims and the laundering of those valuables by the Nazis' Swiss banking partner.

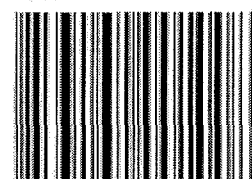

John, and Vangelos' archaeologist daughter, Zoe, begin a breathtaking and dangerous adventure that leads them to ancient and mysterious archaeological sites on the island of Samos. As they try to decipher a map whose strange code was first developed by the great mathematician Pythagoras, they are pursued relentlessly by people who will do anything to prevent them from finding out the real and unimaginable meaning of the map, which is at the center of this spellbinding novel of suspense and intrigue.

"The Pythagorean Solution is Joseph Badal's first entry into the field and I hope an encore is in the works."

FICTION

In the tradition of Coma and
The Andromeda Strain comes the
ultimate biological terror...

A Depriver is someone who, for reasons still under scientific investigation, possesses and employs a defense mechanism that can drastically incapacitate other human beings. They are prohibited by law from touching anyone due to the inherent adverse effects of their touch.

Some people, unfortunately, don't know they're Deprivers. Therefore, a brush with someone on a bus could have life-threatening consequences.

If you have come into direct physical contact with a person suffering from this syndrome, you can be deprived of sight, sound, touch, taste, smell, memory, pain, balance, or sense of direction . . . indefinitely.

The Touch documents over twenty cases of Deprivers Syndrome outbreaks which will keep you in suspense until the final shocking page.

STAY SAFE! DON'T TOUCH STRANGERS!
