Thanks Tony,

Brewster has informed us that he has completed the other actions and I have just completed the domain assignment process using method 2 below.

This is with the proviso that I need to retain use of ibook.com through tomorrow evening as per the Agreement. The DNS records for ibook.com are not with godaddy and so should continue even though the domain has already been transferred to Apple's Godaddy account.

Best Wishes, Brian.

Brian and Brewster

Apple has wired the money to the Citibank account in New York with instructions that the beneficiary is First Global Bank Ltd. in Jamaica i.n.o. Family Systems Limited). Please confirm that the payment has been received by Citibank. As you know, the wire transfer will be considered to have been completed when the posts in the Citibank account 36206959 (not in the Jamaican bank).

We expect that you will be able to give us confirmation tomorrow so that we can then have the domains transferred. In this regard, tomorrow we would like you to (i) send the executed assignments to me by email (ii) send the originals via overnight courier, (iii) consent to the transfer of the domains. By this Friday we would expect you to phase out your use of IBOOK and the domain names.

As to the transfer of IBOOK.COM, IBOOK.NET, IBOOK.ORG, I-BOOK.COM, I-BOOK.NET, and I-BOOK.ORG you need to do one of the following in order to effect the transfer of the domain names to Apple:

1. Family Systems can unlock the domain names and provide us with the "auth code" for each domain name. Then, after receiving emails from GoDaddy to approve the transfers, Family Systems should follow the listed steps to approve the transfers.
2. Alternatively, Family Systems can visit GoDaddy.com and take these steps:
 - Log into "Account Manager" (using Family Systems' own login name and password).
 - In the "My Products" section, click "Domain Manager."
 - Use the check boxes to select the domain names to be transferred.
 - Click "Account Change."
 - In the field titled "New registrant's Customer # or login name," enter the following customer number:
 - In the fields titled "New registrant's email" and "Confirm email," enter the following email address:
 - Under "Domain's contact information," select the following option: "Use details from specified customer account."
 - Click "Next."
 - Agree to the "Domain Name Change Registrant Agreement."
 - Click "I understand that, if I want to transfer this domain...."
 - Click "Finish."

Please let me know that you have received the payment and started the assignment process.

Tony

Subject: Fwd: Agreement - Apple/Family Systems

Tony,

I note from the press that Apple's use of the IBOOK mark in the field of interactive electronic books has been well accepted. Family Systems is proceeding with our transition to the Verbol trademark.

I expected Family Systems would have been paid by now and I am very concerned about hearing nothing about Apple's payment intention. As I understand it Apple was to pay very quickly but allowed up to 10 business days from 26th Jan. Tomorrow will be business day 7 so there will then be only 3 days left prior to default which I would take very seriously.

As payment has not happened and there has been no communication in respect of it, I request immediate contact with an officer of Apple responsible for making payment to ensure that the payment instructions are carried out correctly and so we can plan on a definite date for the transfer. I would like that to be this week.

I would appreciate it if you would address these issues immediately.

Thanks, Brian.

Tony -

Attached is a copy of the executed Agreement. Please have a copy executed on behalf of Apple and returned to us. We will send duplicate original signed copies for execution by mail shortly, and I look forward to receipt of the e-mail confirmation that the wire transfer process has been initiated.
