

**EXHIBIT D TO THE DECLARATION OF
RICHARD S. MANDEL, ESQ.**

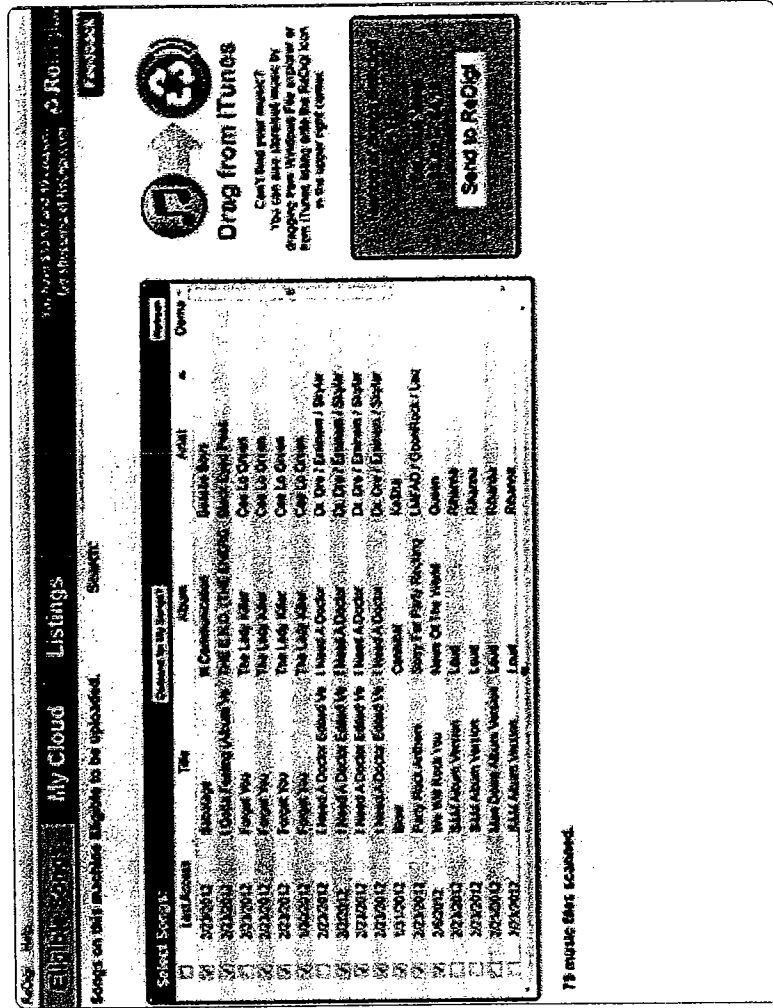

Uploading Eligible Songs

NOTE: If you have a song you'd like to send to ReDigi but it doesn't appear in the **Eligible** tab, you can try dragging it from your library to the ReDigi icon located on your desktop. ReDigi will perform an additional scan to see if it is eligible.

A confirmation display will show you the songs you selected and any copies of those songs located on your computer, all of which will be deleted upon upload to your ReDigi Cloud. Press "Send to ReDigi" to confirm the upload process.

Upload status of songs will be displayed in the **Eligible** tab and Growl messages will inform you of the upload status.

Once your selected songs are successfully uploaded to your ReDigi cloud, a display will ask you if you would like to keep your songs on your Cloud for storage and streaming, or put the songs up for sale in the ReDigi Marketplace.

The World's First Pre-Owned Digital Marketplace

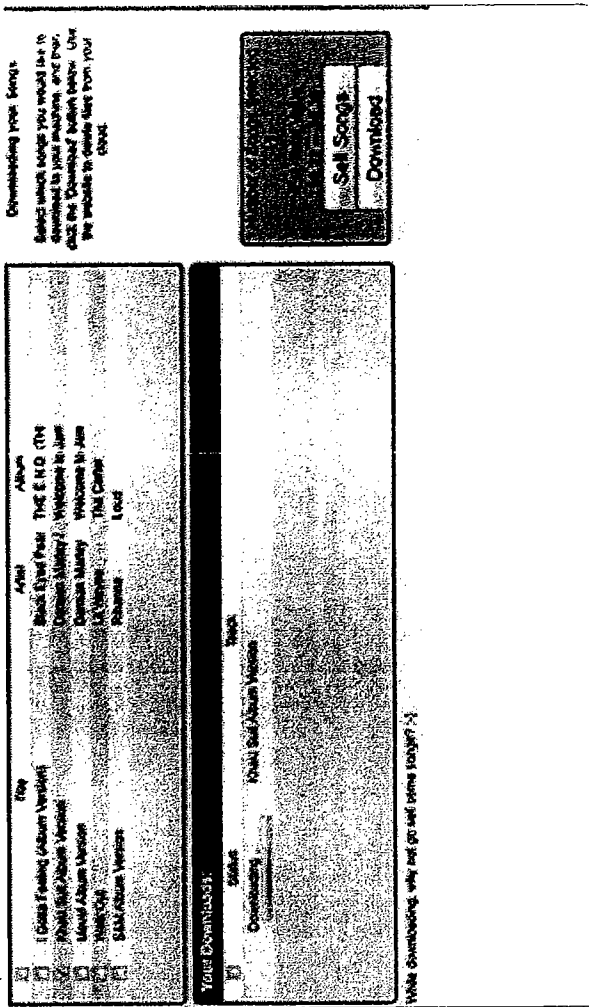

Buy Store/Sell My Cloud

Group tap you can download songs back onto your computer or "Sell Songs" in the Marketplace.

To list a song in the Marketplace, simply select the songs you wish to list in the My Cloud tab and press the corresponding button ("Sell Songs").

Follow the same steps for downloading a song back to your computer.

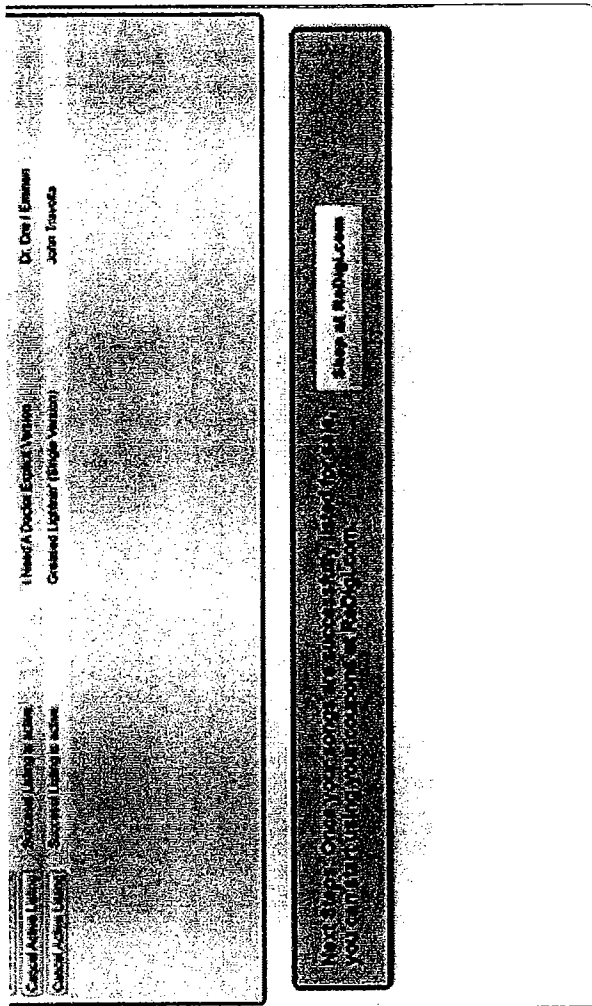

Note that you cannot download and sell songs from your cloud simultaneously. Once you list a song for sale in the Marketplace it will be removed from the **My Cloud** tab and placed in the Active Listings tab.

The World's First Pre-Owned Digital Marketplace

Buy Store/Sell My Cloud

Songs that you have set for sale will be displayed in the **Active Listings** tab, assuming they have not yet been purchased. You can always cancel a listing by selecting the song and clicking the "Cancel Active Listings" button. This will remove the song from the ReDigi market and restore your access to that song from within your Cloud. But remember, if another user buys your song there is no way of getting it back.

ReDigi Inc.

ReDigi is the future of digital music. It is a free Cloud service that allows you to store, stream, and/or sell your legally purchased digital music. It is an Online Marketplace where you can buy pre-owned digital music. It is a way to keep your music collection fresh, and your library full of songs you actually listen to. And it is a great way to support your favorite artists directly because artists that participate in the Artist Syndication Program get paid every time you buy or sell one of their songs. Discover a new way to enjoy your digital music.
