ReDigi Fiat 500 Giveaway Drives Music Fans To Sell or Store Their Unwanted MP3s

Revolutionary marketplace for USED digital music announces massive promotion including weekly giveaways and a grand prize drawing for a new car, open to anyone who stores or offers to sell 10 or more USED mp3s on ReDigi.com

Boston, MA-- December 1, 2011-- ReDigi (www.redigi.com), the revolutionary online marketplace for used digital music, kicks off its beta site "phase 2" of inventory building with a massive promotion that includes weekly giveaways and a grand prize drawing for a new Fiat 500. The promotion is open to anyone who uploads 10 or more songs to sell or store on ReDigi.com and will end when 100k users have entered the contest.

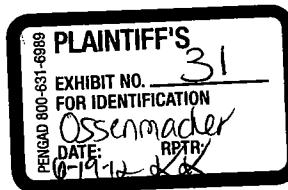

"ReDigi is a community run marketplace so the size and strength of our used music inventory depends on user involvement," said CEO John Ossenmacher. "This promotion is a way to expedite inventory growth and to show our gratitude to the excited music fans who are helping us revolutionize the digital age."

CTO Larry Rudolph adds, "Our goal at launch was to complete testing and have the system debugged by December and we are very pleased to say we were able to achieve that. Now we can focus on the fun part. As we move into phase two it will be all about inventory building."

ReDigi's Phase 2 inventory building promotion includes:

- A weekly lottery drawing for a pair of Solo Beats headphones by Dr. Dre, open to anyone who uploads 10 or more eligible songs to sell or store during that week.
- Grand prize lottery drawing for a Fiat 500, open to anyone who uploads 10 or more eligible songs to sell or store during the course of the promotion. Drawing will take place at the close of the promotion period. For details see contest rules at www.redigi.com.

Participants automatically earn one entry when they upload 10 or more eligible songs to sell in the marketplace or store in their free and private cloud on ReDigi. The promotion kicks off today and will end once 100,000 entry forms are assigned, totaling 1 million songs added to the marketplace inventory.

REDIGI00000043

"One of the coolest aspects of this promotion is that we're limiting the pool to 100,000 entries," said Ossenmacher. "This means your odds of winning a pair of Solo Beats or a new car are incredibly high!"

About ReDigi

ReDigi™ is the world's first and only online marketplace for used digital music. Its genius is in its ability to facilitate the transfer of a digital music file from one user to another without copying or file sharing. This gives digital music a resale value for the first time ever, and consumers the freedom to buy and sell the music they rightfully own. ReDigi also gives back to artists and labels through generous payments with every track sold (and resold). ReDigi is creating a new paradigm, which is changing not only the digital landscape, but also the way people think about and buy digital music.
