White Rabbits

Brooklyn-based White Rabbits are six guys who play really good indy dance-rock, er, rather, *honky tonk calypso*, as they have described their sound. Whatever it is, we like it. These guys know how to put on an awesome show and lucky for us they're on tour, playing shows almost every night between now and May 1st. They've put out three studio albums, two live albums and a number of singles since their 2007 debut.

Currently, Redigi has a solid inventory of White Rabbits, so go get some before it's all gone!

Featured Soundtrack

21 Jump Street

The 21 Jump Street remake is the new box office champ! Movies based on popular TV shows from America's past have been popping up with more frequency leading many to

believe that Hollywood has run out of ideas. The movie has been marketed hard, but one thing you won't be getting (oddly enough) is an official soundtrack or score but not to worry because we got you covered there. It's a pretty diverse mix of tunes ranging from some great classics to some up-and-comers. Check out the songs from 21 Jump Street below:

The Real Slim Shady

By Eminem

on The Marshall Mathers LP

Police And Thieves

By The Clash

on The Essential Clash

Helena Beat

By Foster the People

Party Rock Anthem

By LMFAO

ReDigi, The Digital Media Marketplace

ReDigi is the future of digital music. It is a free Cloud service that allows you to store, stream and sell your legally purchased digital music. It is an Online Marketplace where you can buy pre-owned music for less. It is a way to keep your music collection fresh, and your library full of songs you actually listen to. And it is a great way to support your favorite artists directly because artists that participate in the Artist Syndication Program get paid every time you buy or sell one of their songs. Discover a new way to enjoy digital.

"People want to own their music. You don't want to rent your music - then, one day, if you stop paying, all your music goes away."

~ Steve Jobs
