Doc. 356

Case 1:15-cv-04179-CM-VF Document 356 Filed 10/06/23 Page 1 of 3

UNITED STATES DISTRICT COURT SOUTHERN DISTRICT OF NEW YORK X		ELECTRONICALLY FI DOC #: DATE FILEI 10/6/2023
UNITED STATES OF AMERICA BASSAN,	A, et al. ex rel. URI	15-CV-04179 (CM) (VF)
	Plaintiffs,	<u>ORDER</u>
-against-		
OMNICARE, INC.,		
	Defendant.	
UNITED STATES OF AMERICA	Α,	
	Plaintiff,	
-against-		
OMNICARE, INC. and CVS HEACORP.,	ALTH	
	Defendants.	

On September 15, 2023, the Government moved to compel Omnicare to provide responses to questions that the Government claimed Omnicare's corporate representatives had failed to answer during their Rule 30(b)(6) depositions. See ECF Nos. 340, 342. The Government's motion is **GRANTED** but only as to the following questions identified by the Government in Exhibit B (see ECF No. 340-2).

As it relates to the testimony of H. Barber

VALERIE FIGUEREDO, United States Magistrate Judge.

• Dep. 246:11-13: Q. And was there guidance provided to the pharmacies as to the effect of the maximum quantity required field?

## Case 1:15-cv-04179-CM-VF Document 356 Filed 10/06/23 Page 2 of 3

- Dep. Barber Dep. 196:13-16: Q. So rollover orders alone would not be accepted by CMS for a PDE audit? That is consistent with your understanding of the way that the PDE audits worked and what CMS requested?
- Dep. 216:1-4: Q. And with regard to verbal orders, what's your understanding of whether CMS accepts or rejects verbal orders in the course of PDE audits and what form they have to be in?
- Dep. 158:8-159:20: Q. [Do you know] whether pharmacy technicians who are just starting at a pharmacy receive formal training from Omnicare corporate regarding what constitutes a valid prescription or valid chart order under state law? Q. Do you know what training other pharmacy staff receive regarding what constitutes a valid prescription or a valid chart order?
- Dep. 169:8-19, 169:23-170:2: Q. And how does Omnicare ensure that that training is completed? Q. Was there any mechanism for Omnicare at the corporate level to ensure that that training was performed?

## As it relates to the testimony of C. Miller:

- Dep. 22:12-24: Q. Did new hires have a separate training regimen or period before they began their job, specifically about valid prescription requirements? Q. Was training specifically about Colorado requirements for valid prescriptions for different types of facilities provided to new hires? Q. My question is more prior to someone starting, or outside of it actually being implemented and practiced with the prescription or dispensation, was there any policy or procedure as to providing training, either in a classroom or written materials, about the fact that a prescription is valid for an ALF resident for only 365 days?
- Dep. 52:23-53:4: Q. Are you aware of any formal training, outside of a pharmacist's own education or outside education, are you aware of any formal training provided by Omnicare [to Omnicare of Golden] individuals about how to code the retirement field?
- Dep. 75:1-13: Q. Can you describe any, if any, of Omnicare's policies or procedures with respect to the documentation that its employees needed to see to support dispensing during the relevant time period?

## As it relates to the testimony of A. Baldino:

• Dep. 19:22-25: Q. Other than that form of one-on-one training that you described, there's no other guidance or document or training that Omnicare provided on that topic [that "a year after the prescription is written, it should no longer be filled"]?

Case 1:15-cv-04179-CM-VF Document 356 Filed 10/06/23 Page 3 of 3

In its letter motion, the Government also sought an order compelling Omnicare to clarify

contradictory testimony provided by two 30(b)(6) witnesses. See ECF No. 342 at 5. After

reviewing the transcript of the deposition of Ms. Barber and Mr. Pratt, the testimony of the two

witnesses is inconsistent as to the timing of when the "Prescribed Quantity Required" flag was

changed, and the inconsistency is not resolved by adopting the relevant testimony of Egan,

Schatz, and Pratt, as Omnicare proposed. Omnicare is thus directed to provide a response to the

following questions:

• Did Defendants flip the Oasis "Prescribed Quantity Required" flag (or the "Max Refill Required" or the "Maximum Quantity Required" flag) to Y (or make any

other changes to prevent rollover dispensing in Oasis) for all non-skilled facilities by the end of 2018, regardless of what state law required? If not, did they do so

after the end of 2018 and, if so, by when?

• If Defendants did not flip the above-referenced Oasis flag(s) to Y (or make any other changes to prevent rollover dispensing in Oasis) for all non-skilled facilities

by the end of 2018, for what types of facilities did Defendants flip the flag(s) to Y

and how did they determine which facilities needed their flags to be flipped to Y?

The Clerk of Court is respectfully directed to terminate the motions at ECF Nos. 340 and

342.

SO ORDERED.

DATED: New York, New York

October 6, 2023

VALERIE FIGUEREDO

United States Magistrate Judge
