Father Kenkel,

My mother, who still lives in Des Moines, called me last night.

You are a great teacher, a great man and a great priest!!!!!!!

My memories of Dowling and growing up in Des Moines always include you. You were my favorite instructor. You were a shining star for me. You had a profound impact on me as a person, both from a religious and educational point of view. You definitely are one of the greatest men that I have known.

I have repeatedly question my faith and my membership in the Catholic Church over the years. When I do you some how drift into my thoughts. How can one man have such an impact?

In my life God has thrown up some major road blocks. I some how make it past those obstacles and afterwards it always seems that my faith is stronger.

I am sorry for your roadblock.

I may have never said this but "thank you a million times over".

If I can help or if you need anything please let me know.

You will continue to be in my prayers. I always think of you when I am in church.

Your devoted student and friend,

David Andrew Christenson
Class of 1976

216 Walnut Street
New Orleans, La. 70118

To: David Christenson <dchristenson6@hotmail.com>;

David,

The case is far too complex and legal for my mind. Basically, I have to depend on lawyers to take care of EVERY legal situation. I have not been trained in legal procedures and I am very much afraid to get involved. I have had a legal case, but had a lawyer take care of EVERYTHING. Anything I would say could be taken out of context and I would be more vulnerable. I suggest you get a good lawyer or law firm to be your spokesman. I don't qualify, and I could only hurt both of us. I want to be your friend and help you any way I can, but the legal stuff is too far out of my competence. It is too dangerous for me to get involved.

I respect you and will pray for you, and wish you a blessed Christmas.

I wish I could do more, but legal matters are too dangerous for me to touch.

Your friend,

Fr. Kenkel

Tue, Dec 29, 2015 at 7:19 AM

Jay,

My God works in mysterious ways. I sent you the email. You had time to respond to Ann but not Renee? You are worried about Ann but not Renee? Does your God and you pick and chose who is to be loved and helped? (I can't believe that you accidentally sent me the email instead of Ann.)

It must be very sad to know that you are a failure and that your God is a false God. Christmas week and you could not even reach out to Renee knowing she was in pain.

I will forward this email to the Templet family.

You can take comfort in knowing that Your fellow Catholic, Matt, acted in the same manner as you. He called me and I asked him to have Amanda call Renee. Matt convinced Amanda and Emma to stay away from Renee and they have. Renee had a hysterectomy and was not blessed with children. She loved Amanda and Emma and Matt and Myrthe took that love and made it evil. She has not heard or seen Amanda for over five years. The Templet completely deserted Renee.

It is one thing to harm me but it is a mortal sin to harm Renee and all of you have. In the Bible is says a good friend lays his life down for you everyday. I will continue to lay my life down for you and the Templets such as Jesus did for Judas.

Godspeed.

David Andrew Christenson

Jay Baker, I needed conformation that you would not reach out to your cousin, Renee, when she needed you most and you gave me that conformation. I knew you would turn your back on her. All I asked of you as a priest, human being, her cousin and a man was for you to reach out to her. Instead you forwarded my email to Ann who is one of the most bigoted, selfish and prejudicial people I know. Ann repeatedly and maliciously caused Renee harm. Renee was afraid to reach out to you. She feared that you would reject her and you did. Renee is one of God's Angels. How will you explain to God what you have done?

Dave

Did you all know that the Secretary of the Air Force was my classmate? The Vice-Chairman of the Joint Chiefs of Staff was my classmate. The Chief of staff of the Air Force was a year behind me. The Admiral in charge of the Navy SEALs was a year behind me at the Air Force Academy. My cousin, Vice Admiral John Christenson is the Military Attache to NATO. Just like Gary he and I were once very close.

All of them were my friends at one time. I could not convince them to do the right thing.

I fight every day to save Mankind and I am losing. You all knew me for 20 years and pretended to be my friends.

Read just the following three articles from mainstream media. If you remove legal and illegal immigrants from the studies the results are far more disturbing. The third article is a precursor to what will take place in the general population. Our number one instinct was survival but that is no longer true. Suicide has become a life choice. I have been dealing with suicide since 1976 when my sister first attempted. Remember that 80% of the soldiers that commit suicide, or attempt, have never been in combat. Suicide is contagious. 100 veterans and family members commit suicide every day.

US fertility rate hits a record low

By Daniella Emanuel

<http://www.wisn.com/article/us-fertility-rate-hits-record-low/11654537>

The US fertility rate has dropped to the lowest number reported since fertility records started being kept more than a century ago.

U.S. life expectancy declines for the first time since 1993

By Lenny Bernstein December 8, 2016

https://www.washingtonpost.com/national/health-science/us-life-expectancy-declines-for-the-first-time-since-1993/2016/12/07/7dcdc7b4-bc93-11e6-91ee-1addfe36cbe_story.html?utm_term=.2c3846618916

For the first time in more than two decades, life expectancy for Americans declined last year — a troubling development linked to a panoply of worsening health problems in the United States.

Rising fatalities from heart disease and stroke, diabetes, drug overdoses, accidents and other conditions caused the lower life expectancy revealed in a report released Thursday by the National Center for Health Statistics. **In all, death rates rose for eight of the top 10 leading causes of death.**

The Military Has More Than 900 Suicide Prevention Programs

BY BOB BREWIN EDITOR AT LARGE, NEXTGOV

<http://www.defenseone.com/business/2013/09/military-has-more-900-suicide-prevention-programs/70968/>

The Defense Department has more than 900 suicide prevention programs and plans to whittle down that number based on a cost-effectiveness ratio, according to this missive from the Military Health System

Scarlett,

I wrote this letter to my Uncle Don. I did more for Gary than anyone and yet I could not save his life. I could not convince him of the truth.

Captain Don Christenson
821 Balboa Ave
Coronado, CA 92118-2424
619-437-1688

Don,

Captain Gary Blevins died from pancreatic cancer. (Obit is attached) He was not at risk because of life style or heredity. The reason I am upset is because his two beautiful children, statistically, will develop cancer and probably pancreatic cancer, both are at the University of Colorado. There is no cure for pancreatic cancer and it is an epidemic. I have learned that I cannot help. He and his children should have received advanced screenings for cancer. Gary like all Americans have looked the other way. He paid a heavy price. He did not protect his children even in the end. He did not protect my nephew and Godson.

Gary and I were Air Force pilots together. I was his best man and he was a groomsman for me. I was Godfather to his son. I introduced him to his wife who just happens to be my wife's sister.

After Hurricane Katrina hit I could not convince him of the truth about what was going to take place. He lived in Memphis. I told him to protect his family by getting medical checkups. He did not.

We never spoke after he was diagnosed New Year's Day 2017.

Do you have any idea how hard it is to know the truth and not be able to do anything?

Godspeed.

Dave

The following was sent to Vice Admiral John Christenson in January 2017. He is my cousin and we were one year apart at our respective Academies.

IF I HAD PREVAILED GARY BLEVINS WOULD HAVE RECEIVED ADVANCED MEDICAL SCREENINGS WHICH COULD HAVE DETECTED THE PANCREATIC CANCER THAT HE NOW HAS. THIS EARLY DETECTION WOULD HAVE SAVED GARY'S LIFE OR SUBSTANTIAL INCREASED HIS CHANCES. GARY'S FAMILY WOULD HAVE RECEIVED THOSE SAME ADVANCED SCREENINGS. THIS WILL BECOME EVEN MORE IMPORTANT FOR HIS CHILDREN AS THEY AGE. THE KATRINA VIRUS TRIGGERED THE DORMANT PANCREATIC CANCER GENE IN GARY THUS MAKING HIS CHILDREN HIGHLY SUSCEPTIBLE TO PANCREATIC CANCER BECAUSE THEY CARRY THE SAME GENE. OUR GOVERNMENT MUST DISCLOSE THE TRUTH ABOUT WHAT TOOK PLACE IN NEW ORLEANS DURING HURRICANE KATRINA.

Gary and his family live in Memphis which was in the direct path of Hurricane Katrina. Chemical Warfare Contaminates were released into the environment during Hurricane Katrina. Our government was negligent. Hurricane Katrina was the perfect incubator and transporter because it had high temperatures, high humidity and a high distribution of solids.

Mark Daige also lives in Memphis and he developed prostate cancer when he was in his forties. Mark survived but what about his son? His son should already be receiving advanced medical screenings.

Gary and Mark did not live a life style that placed them into any risk group for cancers and in fact they lived a very pristine life style.
