This was sent to my Uncle Don earlier this year:

Gary Blevins (58) was diagnosed with pancreatic cancer on New Year's Day. Pancreatic cancer is incurable. He had surgery to remove the tumor. Five days later he was told that it metastasized in his lymph nodes. He went into surgery yesterday because his pancreas was leaking. He has not started chemo. He won't see the 4th of July. Gary was in good shape, did not smoke, was not a big drinker and he eat very healthy but he lived in Memphis.

Gary and I met in Germany in the eighties when we were Air Force pilots. We became good friends. He got married and divorced. One of his friends slept with his wife. I was the only one of Gary's friends that stood by him and condemned the friend that slept with his wife. Gary left Germany very depressed and could not get a commercial flying job. I was worried about so I made him a big part of my life. I got him a job flying for Pan Am Express. He is now a Captain for Delta Airlines. I introduced him to my wife's sister and they got married a year after I did. I was Gary's best man and he was one of my groom's men. I did the paperwork for the Catholic Church so that he could get an annulment for his first marriage. The Church accepted my singular testimony and approved the annulment in record time. This annulment made his future wife and my wife very happy. They have two beautiful children and I am godfather to his son. His daughter attends the University of Colorado and his son will attend the same school in the fall. I might have saved his life after Germany. Gary and Mark Daige, another good friend, live in Memphis. Mark had prostate cancer a couple of years after Hurricane Katrina. Hurricane Katrina passed over Memphis carrying the Katrina Virus.
