Civil Action No. 1:18-cv-03501

DEMOCRATIC NATIONAL COMMITTEE,

Plaintiff,

Racketeer Influenced and
Corrupt Organization Act (RICO)

v.

Judge John G. Koeltl

RUSSIAN FEDERATION, et al;

Defendants.

Amicus (Twenty-Four)

Here is a perfect point about how apathetic and immune we are to the serious problems in this world.

Law & Crime ran the following article: Someone Just Filed a Copy of the Unabomber Manifesto in the DNC's Case Against Russia

The publicly docketing of the Manifesto is a huge deal and yet no else covered the story. Read the comments. How many people do you think read the pleading or the Manifesto? How many of them do you think work directly or indirectly for the Government or one of the political parties? How many of them work for the media? Is the media directing the national dialogue for Profit? Absolutely.

The Manifesto was filed by me to get people to think.

It is simple and easy to call me crazy.

It is difficult to truly learn about the world and the truth. What makes it even difficult is the fact that the media is inundating us with crap for profit.

Someone Just Filed a Copy of the Unabomber Manifesto in the DNC's Case Against Russia

by [Ronn Blitzer](#) | 12:09 pm, June 6th, 2018

For those of you who haven't been paying attention to every court filing in the case brought by the Democratic National Committee against the Russian Federation, et al, a pretty wild one came down the pike this week, in the form of a letter that included a copy of the

The letter and accompanying literature was sent by **David Andrew Christenson**, who asked in the court filing, "Who should control these four military grade doomsday weapons?" He then went on to list artificial intelligence, the quantum computer, fusion, and brain monitoring as dangerous tools that are being perfected, questioning whether we want presidents like Trump, Obama, Clinton, Bush Jr. and Sr., and Carter to be in control of such things.

Christenson, who has submitted roughly two dozen letters to the court in this case, did not explain what any of this has to do with the DNC's lawsuit.

In the past, Christenson's letters have touched on subjects including September 11, Hurricane Katrina, and alleged tampering with the upcoming 2018 midterm elections. That last one asked whether Judge **John G. Koeltl** is an "emissary of the devil."

On May 21, after Christenson had already submitted 17 filings with the court, Judge Koeltl issued an order acknowledging them and basically telling him he's wasting his time.

"Non-party David Andrew Christenson has made numerous filings with the Court in this case (see Dkt. Nos. 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 58, 60, 61, 62, 63)," the judge said. "Many of these filings seek to alert the Court to Mr. Christenson's filings in other courts. None of these filings require any action by the Court. To the extent

Christenson was apparently not discouraged by this, having submitted several more since then.

This is a fake news article misrepresenting the actions of some loan crazy man sending unsolicited info to a court. The media is a joke. And Trump was right, they are becoming the enemy of the American people.

Media gets paid by the click. Getting clicks is the only thing that matters.

Then how are there successful outlets that don't use click bait headlines? Maybe sites whose writer's lack any kind of journalistic skill use click bait headlines and articles?

I don't know that it will of course. But there may well come a point when machines are doing so much that it's not good for us. And some people won't like it at all.

Ted will be very upset by someone like this citing his manifesto, as the major reason he pled guilty was because you couldn't make the case that he was NGRI without also saying his manifesto was the work of someone insane, and he was far too proud of it to say that.
