**ONA T. WANG, United States Magistrate Judge:**

The Court has scheduled a separate conference to discuss OpenAI’s deletion of certain output log data, with timelines for supplemental briefing. (*See* ECF 32). The deletion of the output log data was first raised with the Court in January 2025 and discussed at the January 22, 2025, conference. (*See* 23-cv-11195, ECF 379); (23-cv-8292, ECF 327, “Tr. Jan. 22, 2025”).<sup>1</sup> Based on the colloquy at the conference, I denied the News Plaintiffs’ request for “wholesale preservation of the output log data.” (*See* 23-cv-11195, ECF 441 at 2). But, I asked:

Is there a way to segregate the data for the users that have expressly asked for their chat logs to be deleted, or is there a way to anonymize in such a way that their privacy concerns are addressed... what’s the legal issue here about why you can’t, as opposed to why you would not?

(Tr. Jan. 22, 2025, at 40). OpenAI expressed a reluctance for a “carte blanche, preserve everything request,” (*Id.* at 41), and raised not only user preferences and requests, but also “numerous privacy laws and regulations throughout the country and the world that also

---

<sup>1</sup> The transcript for the January 22, 2025, discovery status conference that took place before me is currently located at 23-cv-8292, ECF No. 327, and 24-cv-00084, ECF 135. The docket text incorrectly states that the January 22 conference took place before Judge Stein.

contemplate these type of deletion requests or that users have these types of abilities.”

(*Id.* at 42).

The Court has reviewed the News Plaintiffs’ renewal of their request for an order directing OpenAI to preserve all output log data on a going forward basis, (*see* ECF 29); (*see also* 23-cv-11195, ECF 483), and even OpenAI’s latest responses do not represent whether they have taken—or would take—steps to preserve and segregate the output log data that has been marked or requested for deletion, absent a court order. (23-cv-11195, ECF 491). Moreover, while the colloquy at the January 22 conference focused on the “many, many billions of conversations that are retained,” (Tr. Jan. 22, 2025, at 37), the News Plaintiffs’ supplemental letter suggests that the volume of deleted conversations is significant. (ECF 29).<sup>2</sup>

Accordingly, OpenAI is **NOW DIRECTED to preserve and segregate all output log data that would otherwise be deleted on a going forward basis until further order of the Court** (in essence, the output log data that OpenAI has been destroying), whether such data might be deleted at a user’s request or because of “numerous privacy laws and regulations” that might require OpenAI to do so.

**SO ORDERED.**

Dated: May 13, 2025  
New York, New York

s/ Ona T. Wang  
**Ona T. Wang**  
United States Magistrate Judge

---

<sup>2</sup> OpenAI has also represented to the Court that a “fraction of ChatGPT Free, Pro, and Plus conversations ... have not been retained” as a result of their “default” policy of retention. (23-cv-11195, ECF 491); (Tr. Jan. 22, 2025, at 37). While OpenAI does not elaborate on the meaning of the word “fraction” in this context, Plaintiffs’ supplemental letter does.
