RE: Theodore Brandon Edwards v. Orange County, et al.
17-cv-10116
Our File No.: 05579-64915

Dear Hon. Sir:

This office represents Orange Regional Medical Center ("ORMC") in the above-referenced matter. In accordance with Your Honor's Individual Rules of Practice, please allow this letter to serve as ORMC's request for permission to file a pre-answer motion to dismiss Plaintiff's amended complaint.

On or about March 13, 2019, ORMC moved to dismiss Plaintiff's original complaint. By Decision and Order, dated February 10, 2020, Your Honor granted ORMC's motion to dismiss. Plaintiff served an amended complaint on or about March 17, 2020.

Pro se Plaintiff, Theodore Edwards, commenced this action under 42 U.S.C. §1983 seeking to recover damages based on alleged violations of his constitutional rights. With respect to ORMC, Plaintiff alleges he underwent a CT scan at ORMC on or about October 24, 2017 to determine if he had a cancerous left testicle. ORMC gave Plaintiff a liquid to assist with the CT scan. Plaintiff has not received the results of that CT scan. Plaintiff further alleges that the CT scan performed at ORMC had nothing to do with diagnosing cancer. As a result of that CT scan, Plaintiff claims he is suffering from radiation sickness. It appears Plaintiff's sole claim with respect to ORMC is that Plaintiff underwent an unnecessary CT scan.

May 6, 2020
Page 2

It is respectfully submitted that ORMC is entitled to dismissal of the amended complaint as Plaintiff has failed to plead a cognizable claim under 42 U.S.C. §1983. This Court, by Decision and Order, dismissed Plaintiff's Section 1983 claim against ORMC with prejudice. *See* Dkt. 53, p. 13. As such, Plaintiff should be barred from raising that same claim in his Amended Complaint.

If the Amended Complaint is read to allege a purported state law claim of medical malpractice, that claim must fail as well. Plaintiff fails to allege the elements of medical malpractice, specifically "a departure from good and accepted medical practice and evidence that such departure was a proximate cause of plaintiff's injury." *Gale v. Smith & Nephew, Inc.*, 989 F. Supp. 2d 243, 252 (S.D.N.Y. 2013) (quoting *Williams v. Sahay*, 783 N.Y.S.2d 664, 666 (App. Div. 2d Dep't 2004)). While Plaintiff alleges injury, including radiation sickness, there are no specific facts which show that the injury was a result of a deviation of the standard of care. Therefore, Plaintiff's claim sounding in medical malpractice should be dismissed.

Even if it is determined that Plaintiff's state law claim is viable, it is respectfully submitted that the Court should decline to exercise supplemental jurisdiction. Plaintiff has failed to plead any claims arising under federal law, as such the state law claims should be dismissed. "As a general rule, the Second Circuit and the Supreme Court "have held that when the federal claims are dismissed the state claims should be dismissed as well." *Bennett v. Care Correction Sol. Med. Contracter*, No. 15 CIV. 3746 (JCM), 2017 WL 1167325, at *10 (S.D.N.Y. Mar. 24, 2017) (quoting *In re Merrill Lynch Ltd. Partnerships Litig.*, 154 F.3d 56, 61 (2d Cir. 1998)).

Based on the foregoing, ORMC respectfully requests leave to serve a pre-answer motion to dismiss Plaintiff's Amended Complaint.

Respectfully Submitted,

/s/ Seamus P. Weir

Dear Hon. Nelson S. Roman

I have been transferred to the above facility.

I don't know the status of this civil case due to the pandemic of covid-19.

Is there a way to have a video-via conference?

I hope is well with you and your staff and your loved ones.

Sincerely,
