11/18/2005		Judge Robert B. Collings: Electronic ORDER entered granting <u>105</u> Motion for Modification of March 29, 2005 Scheduling Order. Paragraphs (2)(3)(4) of the March 29, 2005 scheduling order are VACATED. After the Court enters orders on all pending discovery motions, the Court will set a Scheduling Order which will provide that all non-expert discovery will be completed in 4 months from the date of the last discovery order; initial expert reports will be served three weeks after that; rebuttal expert reports will be served thirty days later; expert depositions will be completed with thirty days after that. A schedule for filing dispositive motions will be set at a further conference to be scheduled at a time when all discovery is complete. (Entered: 11/18/2005)
11/18/2005		Judge Robert B. Collings: Electronic ORDER entered granting in part and pretermittin in part <u>37</u> Motion to Compel. Since defendants represent that they have done everything to search for codes which the plaintiff proposes to do by obtaining mirror images and have produced everything that has been found responsive to plaintiff's requests, the Court will not at this time require the production of mirror images of hard drives within the custody, control and/or possession of defendants but permit plaintiff to take discovery as to the steps the defendants have taken to obtain and produce the codes. If defendants' counsel's representations turn out to be inaccurate, the Court may allow the plaintiff to make mirror images of defendants' hard drives. Further, the defendants shall provide all information to the plaintiff as to the identity of the entity which has possession of the server upon which the Facebook was initially launched and the plaintiff may subpoena that entity to permit the making of a mirror image of the hard drive from which the launch occurred. If the entity objects, it may follow the procedures set forth in Rule 45, Fed. R. Civ. P. (Entered: 11/18/2005)

03/28/2007		Judge Douglas P. Woodlock : Electronic ORDER entered ADOPTING REPORT AND RECOMMENDATIONS, the clerk is directed to dismiss this case. Because this dismissal is without prejudice in the sense that it does not address the merits of the allegations, refileing might be contemplated. In this connection, the attention of the parties is directed to Local Rule 40.1(G)which would for the near future cause the refiled case to be treated as a related matter which will be reassigned to this session (and in parallel to Magistrate Judge Collings' session). I would anticipate that under such circumstances case management concerns will result in proceedings effectively picking up where they were left off with this dismissal and previous discovery will be available with a view toward assuring that the case proceeds promptly to resolution.
