Technical Resource Center Computer Forensics

PROFESSIONAL BIO:

Neil Broom is the President and Laboratory Director of the Atlanta GA based Technical Resource Center, Inc. (www.trcglobal.com). As an expert witness, investigator, speaker, trainer, course director, and consultant in the fields of Computer Forensics, Network and Computer Security, Information Assurance, and Professional Security Testing, he has over 16 years of experience providing investigative, technical, educational, and security services to the military, attorneys, law enforcement, the health care industry, financial institutions, and government agencies. He is a licensed Georgia Private Detective and Private Detective Instructor, and TRC is a licensed Georgia Private Detective Agency. He is a qualified Expert Witness in Federal and State Courts.

Neil Broom is the Lead Instructor and Developer of the Technical Resource Center's *JumpStart Computer Forensics (Applied Computer Forensics)* course. He also wrote the ProDiscover Certified Examiner training course and certification. Additionally, he has provided training in the fields of Computer Forensics and Information Security to over 3,000 students in the US Government, US Military, US Intelligence Agencies, and Fortune 500 companies in the United States and abroad. He has also trained a diverse population of computer forensics and electronic discovery organizations that currently compete with TRC.

Neil Broom coauthored a technical book in 2004 for Sybex Publishing entitled *Computer Forensics JumpStart*. The book is a primer for anyone interested in entering the Computer Forensics field. The second edition of this book was released in 2011, with Broom as the Technical Editor.

Neil Broom currently serves on the Ethical Standards Committee of the International Society of Forensic Computer Examiners (ISFCE) and the National Leadership Assembly of the American Society of Digital Forensics & eDiscovery (ASDFED). Additional, he is the past Chairman of the Digital Evidence Subcommittee for the International Association for Identification (IAI) and has been a Professional Member of the National Speakers Association. His past employment includes the U.S. Navy as a Submariner, the Gainesville Police Department as a Law Enforcement Officer, the S1 Corporation as a System Administrator, and Internet Security Systems (now a division of IBM) as a Security Trainer.

In the fall of 2009, Neil Broom received the quarterly Certified Computer Examiner (CCE) Excellence Award from the International Society of Forensic Computer Examiners (ISFCE), "For work in the field of computer forensics and representing the ISFCE and CCE designation in a positive manner."

Technical Resource Center is the only private lab east of the Mississippi that has earned the prestigious ASCLD/LAB Accreditation in the field of Digital Evidence (Computer Forensics) from the American Society of Crime Laboratory Directors / Laboratory Accreditation Board. ASCLD/LAB is the largest forensic science accrediting body in the world and is recognized by the criminal justice system as a means of determining that a laboratory has met a set of internationally recognized standards of operation for forensic laboratories. As the Laboratory Director for an ASCLD accredited laboratory, Neil Broom is a member of the ASCLD/LAB Delegate Assembly.
