Posted by: [Dean Boland](#)

Plaintiff Paul Ceglia provided to the court and released to the public the overwhelming, objective, scientific and indisputable evidence that his contract with Mark Zuckerberg is authentic. These reports comprise more than 1000 pages of analysis, exhibits, images, scans and charts documenting every facet of the experts' conclusions.

Several of their key conclusions are undisputed by Zuckerberg's experts including that Zuckerberg's initials on page one of the Facebook Contract were placed there by him. His signature appearing on page two of the contract is genuine as well.
