Updating of the US State Trademark Database is provided by license with and permission of CT Corsearch.

+ Indicates that our trademark database for this state contains images, packaging samples and specimens of use filed with trademark applications.

\* Because of the manual nature of data collection for Puerto Rico, we are unable to guarantee that all records through the coverage date are included.

In-Use Information

In-Use Information shows whether and how potentially conflicting trademarks are being used on the Web. We provide information, when available, on the citation, its owner and its use in commerce for up to 25 Group One citations per data source (USPTO, State, Common Law Database, Business Names and Gale Group Database). The search results included in this section are a selection of the information available at the time of the preparation of this search report, and are not a comprehensive representation of the Web. Any of the Web links included in your search report may become unavailable at any time following the preparations of this report.

Owner Matching

The Owner Matching feature is an index within the trademark record showing citations within the report with the same owner. Owner Matching is an alphabetical, word for word match. Inconsistencies in the data coming from providers (i.e., USPTO, State, etc.) may impact results.

Owner Information

Owner Information provides business information about the last reported owner of a trademark, based on a programmatic matching of USPTO, State and certain Common Law trademark records and any business information associated with the trademark owner. We do not guarantee the accuracy of the programmatic matching nor the accuracy of the business information provided by our third party vendors.

With the emergence of the Web as an important common law source, our analysts search the web and include potentially conflicting marks in this Web Common Law section.

Data Information

Our Search Analysts search the Web and select marks to include in your report based on the mark's similarity to the mark being searched and to the goods and services specified. The selected citations provide examples of potentially conflicting occurrences and include links to the Web page(s) on which the mark was found.

For Web Search Extensions, we search the mark and focus on targeted industry-specific Web sites where significant commerce takes place for each of the industries we cover. This focused research can reveal marks that may otherwise be hard to identify.

Important Notices

Due to the dynamic nature of the Web, citations may become available or unavailable at any time. The search results included in this section are a sampling of the information available at the time of the preparation of this search report, and are not a comprehensive representation of all Web sites. **Lulu's dash for cash**

The Backdrop: Younger daughter ("M3" - age 5) and I tangled in our third head-to-head match-up of 1313 Dead End Drive. Her mom helped her to victory in game 1. She defeated me 5 to 4 with no help in the second conte Needless to say, looking down the barrel of a three-game losing streak is r a sight that I relish.

Strategy: M3, playing with a maturity well beyond her years, took the very straightforward strategy of prioritizing getting her people out of Agatha's house with whatever inheritance that was due them. As opportunities present themselves, she will move opponent's heirs into harms way. In sh contrast, I will move opposing heirs to the house's hazards at every opportunity - only occasionally helping my heirs towards the front door.

Early Play: Of the 6 heirs that I held in hand, I had drawn Spritzzy from the t row of would-be heirs to Agatha's fortune. Spritzzy, however, is always a bi target as the first heir in-line for several bags of money, and her evening came to an abrupt end early in the game - the victim of a heavy suit of arm collapse. The big pile of cash passed down the heir pecking order (as specified in the will) through Sedgewick and Dusty, who met similar unfortunate fates. The large sum now sat next to Parker's name.

While all the remaining heirs had a portion of Agatha's wealth earmarked f them, a large piece of Agatha's fortune was now stacked on Parker and would have to pass through three more would-be heirs (Parker, Prudence and Lulu) before another one of my heirs would have a shot at that cash. Unfortunately, M3 held all three of these heirs in hand, and I'd have my wo cut out for me to eliminate them from the game.

Critical Play: I managed to end Prudence's night over at the fireplace and was starting to maneuver Parker and Lulu towards the unsafe safe. M3 rol and managed to use her two movement allowances to get both Parker and Lulu a little closer to the exit. My subsequent roll landed Parker back on the safe trap, where she met her demise, and Lulu was moved a little closer to

customer testimonial

“ I wanted to just say hello and to tell you what a wonderful experience I've had with this company. I received a present from my cousin, which I wanted to return for another size and not only was the transaction so easy and smooth, but the staff that worked with me was so warm/joyful/and ready to please the customer! I've experienced great customer service from other companies too, but this must be the best I've received. I not only will shop here again and again, but I've gone on to tell everyone who's complimented the shoes about my experience and how they MUST shop at Zappos. You guys have gone way out of your way to make sure that I was a satisfied customer and indeed I am. Thanks and keep up the great work. I believe the person I worked with was a woman named Jo...so if you know who she is...please tell her she's great! ”
