## Our Latest Release

Roots rock and alternative country - clean guitars with a rock-solid rhythm section.

### ***PAUL BARRY and the DEL REYS!***

Backed by the rock solid Del Reys, Barry adds his revved-up vocals to 12 great, country-twang rockers. No angst here. This CD is all about fun. In-the-pocket groove, clean guitars, hooks, and harmonies are a focus of this CD. An impressive lineup of sidemen, including current Asleep at the Wheel steel guitarist Eddie Rivers, add the tasteful violin, keyboard, and steel guitar parts.

Throw this baby in your car and get you're ready to roll. Might be the greatest little unknown roots CD of 2005. Please help spread the word.

## Grassroots Marketing & Public Relations

Home

Our passion... building your brand through grassroots marketing and public relations. We work closely with you and together we streamline brand awareness and grow it on your passion - your business.

What we do

We love telling your story...part of our fun is in collaboration. We achieve extraordinary results by listening and learning from you.

Contact

We enjoy building relationships on your behalf. There are only possibilities and opportunities of spreading your word and increasing your market share.

Working with LuLu Media will be a pleasurable experience!

It sounds simple because it is!

We start at the foundation and build the house brick by brick. Your brand is your house - it's where you live.

*If you have built castles in the air, your work need not be lost; that is when they are built on a foundation. Now put the foundations under them. -Henry David Thoreau*

## WHO ARE WE

Lulu Open Media sells software, support and solutions for deploying rich media applications on embedded devices and consumer electronics.

At the heart of our offering is the Lulu Media Player, a stable, open source all-purpose platform-independent media player based on the popular Gnash project. The player is backed up on the infrastructure side by the Lulu Media Server, an open source streaming media server based on Cygna. To make it all work, we sell consulting, porting and support services so that you can deploy your solution with confidence.

## WHAT DO WE DO

Lulu Open Media is about ramping up the pace of digital media innovation, about enabling content creators and license owners to get their goods on the newest devices, about empowering consumers to use their media on their terms and about giving consumer electronics and embedded device manufacturers the code and tools they need to deploy any digital media type—no matter the license, no matter the codec, no matter the device.

We employ some of the world's foremost experts in open source development, rich media delivery, embedded systems engineering and application portability. We can assemble the right team to help deploy and support your solution.
