## Welcome to Lulu Studios Ltd.

**Sorry folks.  
We're just setting up.**

---

**news**

**PEGBAR™**  
volume 2, issue 1 2007

[Pegbar Magazine](#) comes back with a new volume - *online*. Oscar-nominated, Canadian animator **Richard Condie** (revered at film festivals internationally for his work in the golden era of animated wit and humour,) designs art and objects for this inaugural issue..

*Pegbar* traditionally commissions cover designs, as signed, limited edition prints - highly collectable. A new tradition begins as we explore the wacky world of webmasters.

Richard Condie, *Pegbar* cover designer for *Volume 1, Issue 5, Fall 1986*, returns to lead the art parade for the 2nd Volume. Music plays a role in the Grand Master's plans.

Fans of "*The Big Snit*," "*The Apprentice*," and "*Getting Started*," recognize Condie's zany style. Later work includes computer

## REPORTED OWNER INDEX

The following is an alphabetical listing of names reported in the OWNER field of records cited in this search report, with all marks owned by a single entity carried under that entity. (Due to inconsistent spellings, corporate designations, and other discrepancies in data collected from diverse sources, multiple listings of what are in fact the same owner may occur.) The Business Name, Domain Name and Gale Database sections of the report are not included in this index.

This tool is designed to facilitate your review of the search report and to help you identify trends in data. There has been no analysis made to determine if the company name listed is the actual owner of the trademark. In the case of USPTO listings, only officially reported owners are included; assignees are not considered owners for the purpose of this index.

ALL CLASSES

We have taken all reasonable steps to ensure the completeness and accuracy of this report. However, for various reasons, including the subjective nature of trademark searching and the possibility of incomplete and inaccurate data provided by the United States Patent & Trademark Office and other national trademark offices, the Secretary of States' Offices, and all of the many vendors and publishers of trademark and business information used in compiling search reports, we cannot warrant that this report is complete or error free. AS A RESULT, WE DISCLAIM ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. This search is valid only for the mark and goods noted above. If the mark or goods that were the subject of this search change, even slightly, a new search should be performed.

Any liability arising out of the preparation of this report is limited to a refund of the search fee paid. Acceptance of this search constitutes an acceptance of the aforesaid terms, conditions and limitations. This report in no way constitutes a legal opinion. The ranking of cited references into groups based on their relative relevance to the mark searched is for the convenience of our clients in reviewing the search report and is not intended to convey an opinion regarding the legal significance of any cited reference.

**ANALYST REVIEW - USPTO REPORT**Search Information

Type of Search: **DILU FULL SRCH-T&T**  
Mark: **ULU**  
Goods/Services: **ALL CLASSES**

Data Information

This search report includes information from the USPTO Official Gazette published on **09/04/2007**. On the date your search was conducted, our most recent pending application data included USPTO trademark records filed through **09/03/2007**. These records are received from the U.S. Patent and Trademark Office and updated to our database as they are made available. Serial numbers filed through **08/30/2007** were complete at the time this search was conducted.\* (The period between most recent records and complete records is attributable to gaps in serial numbers and dates from the USPTO; some of these gaps are due to differences in processing for electronically-filed applications.)

Our database includes active USPTO text records dating from **1884** to present.

All queries in the Search Strategy below have been applied to all active applications and registrations in our database, as well as inactive USPTO applications and registrations from 01/01/2002 to the present. Inactive USPTO applications and registrations from 01/01/1984 - 01/01/2002 are searched for identical trademarks.

\* Except for a small number of applications delayed in processing by the USPTO.

In-Use Information

In-Use Information shows whether and how potentially conflicting trademarks are being used on the Web. We provide information, when available, on the citation, its owner and its use in commerce for up to 25 Group One citations per data source (USPTO, State, Common Law Database, Business Names and Gale Group Database). The search results included in this section are a selection of the information available at the time of the preparation of this search report, and are not a comprehensive representation of the Web. Any of the Web links included in your search report may become unavailable at any time following the preparations of this report.

Last Reported Owner

"Last Reported Owner" is our best determination of the owner of a trademark, based on a programmatic analysis of USPTO trademark records and any assignment transactions associated with the trademark. In determining "Last Reported Owner", we exclude recorded documents representing security interests, liens and other transactions which ordinarily do not result in a change of ownership.

Owner Matching

The Owner Matching feature is an index within the trademark record showing citations within the report with the same owner. Owner Matching is an alphabetical, word for word match. Inconsistencies in the data coming from providers (i.e., USPTO, State, etc.) may impact results.

Data InformationWorldwide Filings

A Worldwide Filings flag indicates how often owners of cited USPTO trademarks have filed for protection of the cited marks outside the United States. We compare the owner and trademark, as listed in our proprietary USPTO database, to our worldwide trademark databases. The worldwide trademark databases include first publications since January 1, 1976. (For China, only trademarks published since January 1, 1986 are included). In most of the over 200 countries, first publications are new applications published in the Official Gazettes for opposition purposes.

Please Note: Worldwide Filings provides an indication of international trademark filings, but should be considered advisory information only, due to possible inconsistencies in the data and the update frequency of trademark records provided by international trademark offices. Furthermore, the documentation does not include renewals or indications about the subsequent fate of the applications retrieved, such as registrations, rejections, withdrawals, amendments and partial cancellations. For additional information, please refer to the electronic version of this search report, accessible through your SAEGIS™ Inbox.

Analyst Information

Name: **ANN ARNOLD**  
 Comments: **I developed the following search strategy to provide a comprehensive, accurate report. These queries, listed below, retrieved 404 potential references from the database. After careful review and analysis, I have selected 392 records for your review.**
