 Goods/Services: **ALL CLASSES**

Data Information

**Please see COMMON LAW SOURCE LIST for complete listing of our print and computerized common law sources.**

In-Use Information

In-Use Information shows whether and how potentially conflicting trademarks are being used on the Web. We provide information, when available, on the citation, its owner and its use in commerce for up to 25 Group One citations per data source (USPTO, State, Common Law Database, Business Names and Gale Group Database). The search results included in this section are a selection of the information available at the time of the preparation of this search report, and are not a comprehensive representation of the Web. Any of the Web links included in your search report may become unavailable at any time following the preparations of this report.

Owner Matching

The Owner Matching feature is an index within the trademark record showing citations within the report with the same owner. Owner Matching is an alphabetical, word for word match. Inconsistencies in the data coming from providers (i.e., USPTO, State, etc.) may impact results.

Analyst Information

Name: **ANN ARNOLD**  
 Comments: **I developed the following search strategy to provide a comprehensive, accurate report. These queries, listed below, retrieved 72 potential references from the database. After careful review and analysis I have selected 72 records for your review.**

## REPORTED OWNER INDEX

The following is an alphabetical listing of names reported in the OWNER field of records cited in this search report, with all marks owned by a single entity carried under that entity. (Due to inconsistent spellings, corporate designations, and other discrepancies in data collected from diverse sources, multiple listings of what are in fact the same owner may occur.) The Business Name, Domain Name and Gale Database sections of the report are not included in this index.

This tool is designed to facilitate your review of the search report and to help you identify trends in data. There has been no analysis made to determine if the company name listed is the actual owner of the trademark. In the case of USPTO listings, only officially reported owners are included; assignees are not considered owners for the purpose of this index.
