| 03/07/2018 | 10348 | ORDER . The Court just had a conference call with the parties about reviewing objections in deposition designations. The Court directed the parties to email pdf copies of deposition transcripts to the Court -- for the first 7 depositions -- by 4:00 p.m. on Friday. The Court will try to get rulings to the parties on Monday. To facilitate the Court's review of the remaining 12 or so deposition transcripts, the parties should email the transcripts to the Court by 10:00 a.m. on Tuesday morning. The Court will endeavor to review and rule on those transcripts Tuesday afternoon and evening, thereby avoiding the need to do so during trial, which will be very busy with other matters. | 03/07/2018 | 10353 | ORDER . In a second conference call today, Plaintiffs noted that they inadvertently failed to list Dr. Streiff, one of their experts, as a witness in the final pretrial order. He can be added only to prevent manifest injustice. Fed. R. Civ. P. 16(e). The Court has reviewed Dr. Streiff's expert report, and he clearly states opinions on the benefits of IVC filters that will be relevant to the risk-benefit analysis to be performed by the jury. The Ninth Circuit applies a four-part test to evaluating manifest injustice: "(1) the degree of prejudice or surprise to the defendants if the order is modified; (2) the ability of the defendants to cure any prejudice; (3) the impact of the modification on |

|------------|--------------|--|
| | | the orderly and efficient conduct of the case; and (4) any degree of willfulness or bad faith on the part of the party seeking the modification." Hunt v. Cty. of Orange, 672 F.3d 606, 616 (9th Cir. 2012). Dr. Streiff produced a report, was deposed by Defendants, and was the subject of a defense Daubert motion. He is not a new entrant into this litigation. The Court concludes that Defendants will not be seriously prejudiced if he is added as a witness, and that they can cure any prejudice by adding exhibits to the final pretrial order that they omitted when they believed he would not testify. Because trial will not start for several days and will last three weeks, the Court does not find that the orderly conduct of the trial will be seriously affected by adding him. The Court finds no willfulness or bad faith on the part of Plaintiffs. Dr. Streiff may be added to the final pretrial order. The parties should confer about exhibits Defendants need to add in light of this development. Signed by Judge David G Campbell on 3-7-18. This is a TEXT ENTRY ONLY. | 03/09/2018 | 10384 | ORDER . The Court has reviewed Plaintiffs' proposed additional voir dire questions for trial. Doc. 10351. The Court will ask questions 1 and 3, but concludes that all of the other questions are an attempt to preview the merits of the case and predict jurors' potential views on the merits. The purpose of voir dire is to reveal actual and suspected bias or prejudice, <i>Scott v. Lawrence</i> , 36 F.3d 871, 874 (9th Cir. 1994), not to pre-try the case. The Court concludes that the extensive jury questionnaire and the addition of voir dire questions 1 and 3 will accomplish that objective. Signed by Judge David G Campbell on 3-9-18. | 03/09/2018 | 10385 | ORDER . The Court has reviewed the parties' proposed revisions for the jury questionnaire to be used in the Jones case. The Court will adopt all of the parties' undisputed changes. The Court will not add punitive damages to question 35 (revised question 36). The Court concludes that many prospective jurors will not understand what is being asked, and will instead think they are being asked for their view on excessive damages awards. The Court will include the topic in proposed question 38, but in this revised form: "This case likely will include evidence of FDA clearance of medical products. Do you have strong feelings, favorable or unfavorable, about the FDA or its oversight of medical products?" If the answer is yes, the proposed juror will be asked to explain. The Court will also add this question to the voir dire to be asked in the Booker case next week. Signed by Judge David G Campbell on 3-9-18. This is a TEXT ENTRY ONLY. | 03/26/2018 | 10535 | ORDER . At the close of trial today, Plaintiff's counsel again expressed concern about the amount of time remaining for their case. The Court explained why it believes Plaintiff has had ample time to present her case, choosing during her case-in-chief to present much repetitive evidence and questioning. The Court has already allotted each side two additional hours, beyond the time set at the outset of the case, to account for this problem. Plaintiff's counsel asserted that they are now faced with the prospect of being unable to cross-examine some defense witnesses. The Court wishes to avoid a miscarriage of justice, even one of counsel's own making, and therefore will consider allotting Plaintiff one additional hour, not to be subtracted from Defendants' time. The Court told defense counsel it would hear their arguments before making any final decision, and will hear their arguments tomorrow morning. Signed by Judge David G Campbell on 3–26–18. | 03/28/2018 | <u>10573</u> | ORDER . At the close of the evidence today, Plaintiff made motions for judgment as a matter of law on Defendants' superseding cause and comparative fault defenses. (1) The Court will deny the motion with respect to Defendants' superseding cause defense based on the actions of Dr. Kang. The Court concludes that the evidence creates a jury question on the first and second elements of the defense: whether Dr. |

| | | |
|------------|--------------|---|
| | | Kang's action was not foreseeable by Bard, and whether Bard did not trigger Dr. Kang's action. Plaintiff did not argue that the third element provides a basis for judgment as a matter of law. (2) The Court will deny the motion with respect to Bard's comparative fault defense based on the actions of Dr. Amer and superseding cause defense based on the actions of other radiologists. The Court has re-read the Moore case discussed by the parties and the testimony of Dr. Sobieszczyk. Dr. Sobieszczyk testified that (a) the incorrect reading of Plaintiff's x-rays and scans were "missed opportunities"; (b) "there were signals that the filter should have been retrieved"; (c) the x-rays and scans should have prompted "consideration of filter retrieval"; and (d) the filter could have been removed percutaneously when the x-rays and scans were done. Although he did not opine that the filter "would" have been removed if the x-rays and scans were reported accurately, the Court concludes that his testimony is sufficient to support a finding, by a preponderance of the evidence, that the failures to accurately read the x-rays and scans resulted in the filter not being removed and proximately caused some of Plaintiff's damages (Dr. Amer) or caused one or more of Plaintiff's injuries (the radiologists). The Court's decision is influenced by the Moore case, particularly its emphasis that "[q]uestions regarding causation are peculiarly question for the jury except in clear, plain, palpable and undisputed cases." <i>Moore v. Singh</i> , 775 S.E.2d 391, 323-24 (Ga. Ct. App. 2014). Given the testimony of Dr. Sobieszczyk cited above, the Court does not find this to be such a case. Signed by Judge David G Campbell on 3-28-18. This is a TEXT ENTRY ONLY. There is no PDF document associated with this entry. (DGC) (Entered: 03/28/2018) |

| 05/15/2018 | 11082 | ORDER . At the close of trial today, Plaintiff's counsel again asked the Court to admit evidence of Recovery filter cephalad migration deaths. Plaintiff argued that Defendants' opening statement opened the door to such evidence. (1) Plaintiff noted that Defendants argued that IVC filters are life-saving devices. True, but the Court has not precluded Plaintiff from presenting evidence that IVC filter complications can also cause death. Indeed, Plaintiff's counsel stated in his opening statement that unacceptable risks of Bard filters can include death, severe injury, or permanent disability. The Court does not find that the "life-saving device" argument has opened the door to the cephalad migration death evidence the Court has excluded under Rule 403. (2) Plaintiff argued that Defendants emphasized the disclosures contained in the Eclipse filter IFU, including disclosure of the risk of death, and argued that the Recovery filter IFU should have described deaths from cephalad migration. When asked why Recovery filter warnings (or lack thereof) are relevant |

| | | |
|------------|--------------|---|
| | | <p>in this Eclipse filter failure-to-warn case, Plaintiff asserted that such information would have carried forward into the Eclipse IFU. The Court cannot conclude, however, that IFU warnings for the Eclipse filter should have included deaths caused by a different filter, four-generations and five-years earlier, through a method of migration that largely ended after the Recovery filter. Plaintiff's counsel stated that they have no expert, and can cite no regulation, that would require such warnings. The Court again concludes that the marginal relevancy of this evidence to the Eclipse failure-to-warn claim is substantially outweighed by the danger of unfair prejudice. (3) Defendants did assert in their opening statement that only 16 deaths have been caused by pulmonary emboli (PE) in patients with Bard IVC filters, and they did not limit this assertion to the Eclipse or G2 line of filters. This statistic was also included in a slide shown to the jury. When the Court asked defense counsel what witness would present these statistics to the jury, he said it would be either Mr. Modra or Mr. Carr. The Court is inclined to permit Plaintiff's counsel to cross-examine the witness on the basis for this calculation, including what deaths were included in the calculation and the fact that other deaths have been reported in Bard IVC filter patients, including deaths caused by filter migration. Certainly other filter-related deaths, even if not caused by a PE, are relevant to the risk-benefit analysis on which Defendants placed considerable emphasis in their opening. The Court will make a final decision on this issue after the direct examination of Mr. Modra or Mr. Carr. Plaintiff's counsel should raise this issue before mentioning it in front of the jury, and the Court will decide the proper scope of such cross-examination. Signed by Judge David G Campbell on 5-15-18. This is a TEXT ENTRY ONLY. There is no PDF document associated with this entry. (DGC) (Entered: 05/15/2018)</p> |

| 05/17/2018 | 11122 | ORDER. Plaintiff seeks to admit a chart under Rule 1006 (Ex. 4565) of complaints received by Bard for the Recovery, G2, G2X, and Eclipse filters, concerning migration, tilt, perforation, and fracture. The chart is based on events reported in Bard internal complaint record detail reports (such as Ex. 3270), in monthly management reports to Bard executives (such as Ex. 4515), and to the FDA in Medwatch reports (such as contained in Ex. 3262). Bard objects on hearsay, relevancy, and Rule 403 grounds. The Court has read memoranda filed by the parties, heard oral argument, and reviewed the relevant cases. (1) The Court overrules the hearsay objection on the basis of Rules 803(6) and 801(d)(2)(B). (a) Testimony from Mr. Modra today established that the Bard complaint files, including the event descriptions summarized in the chart and monthly management reports, are created and maintained in the ordinary course of business at Bard, at or near the time of the event described. Although some of the information comes from sources outside of Bard, such as doctors, the Court concludes that the requirements of <i>MRT Constr. Inc. v. Harddrives, Inc.</i> , 158 F.3d 478, 483 (9th Cir. 1998), and <i>U.S. v. Childs</i> , 5 F.3d 1328, 1333-34 & n.3 (9th Cir. 1993), are satisfied because the records are kept in the regular course of Bard's business and are relied on by Bard, and Bard has a substantial interest in the accuracy of the records. If Ninth Circuit law also requires that Bard verify the information, see <i>U.S. v. Bland</i> , 961 F.2d 123, 127 (9th Cir. 1992), the Court finds this requirement satisfied as well. Mr. Modra and Mr. Carr testified regarding the substantial efforts made by Bard to verify the |

| | | <p>accuracy of the information contained in the complaint files, including the event description. (b) The Court also concludes that Bard's use of the complaint information and event descriptions in internal reports to executive management and in Medwatch reports to the FDA constitute adoptive admissions of the information and descriptions. See <i>Sea-Land Service, Inc. v. Lozen Intern., LLC</i>, 285 F.3d 808, 821 (9th Cir. 2002); 5-801 Weinstein's Federal Evidence § 801.31 3 [b] (2018) ("A party may adopt a written statement if the party uses the statement or takes action in compliance the statement."). (2) The Court finds that the documents are relevant under Rules 401 and 402. The Court finds the filter failure reports to be sufficiently substantially similar for reasons previously stated. See Doc. 10258 at 1-4. This conclusion applies to complications arising from an implanted filter, not complications from deployment or removal. The Court cannot tell whether Ex. 4565 includes any of the latter kinds of events. (3) The Court is undecided on Bard's Rule 403 objection, and instructs the parties to be prepared to address the following issues tomorrow morning: (a) Have Defendants had an opportunity to review Ex. 4565, and do they contend that some of the incidents in the chart are not implanted filter complications or are objectionable for other reasons? (b) Some cases have held that repeated evidence of similar events becomes unfairly prejudicial. See, e.g., <i>Schwartz v. New Castle Corp.</i>, 131 F.3d 148 (9th Cir. 1997) ("even where other guests were involved, given that the court allowed 4 of the reports, the sheer cumulativeness of admitting 28 additional reports risked unfairly prejudicing the Excalibur"). Does Plaintiff have contrary authority — cases where evidence comparable to Ex. 4565 has been admitted? (c) Question for Plaintiff: If the Court permitted Plaintiff to add up the number of complaints in Ex. 4565 and present that number to the jury, along with, say, 40 examples of complaints (10 for each type of filter), why would that not accomplish everything Plaintiff seeks from this evidence and without the risk that "the sheer cumulativeness" of the additional reports would unfairly prejudice Defendants? | 05/19/2018 | 11157 | ORDER . This order follows up on Doc. 11122. The Court heard additional argument on the admissibility of evidence discussed in that docket entry. The Court has also conducted further review of Ex. 4565 and has reviewed In re Tylenol, 181 F. Supp. 3d 278, 287 (E.D. Pa. 2016). The Court continues to conclude that the evidence is relevant and not barred by the hearsay rules, for reasons stated in Doc. 11122. After considering the parties' Rule 403 arguments, the Court will admit the complaint record detail reports and the monthly management reports identified during the testimony of Mr. Modra, with appropriate redactions of counsel's name in Ex. 3270. With respect to Ex. 4565, the Court concludes that admission of the details of approximately 1,000 complication events would be cumulative, and that the danger of unfair prejudice would substantially outweigh the probative value of those details. The Court also concludes, however, that the number of complaints and some exemplars of the details of those complaints are highly relevant and would not run afoul of Rule 403. The Court therefore will admit a Rule 1006 summary exhibit that contains the number of complaints, by filter type, failure type, and date, found in the Bard complaint files, as well as the Bard event descriptions for 40 of the complaints. The 40 exemplars should include 10 for each filter type that is relevant in this case (Recovery, G2, G2X, and Eclipse) and should be selected to represent the range complications reflected in the Bard complaint files. Plaintiff's counsel should prepare this exhibit and present it to defense counsel for review. If defense counsel believes the exhibit is unfairly compiled for some reason, the Court will hear the parties and resolve their disagreement. Signed by Judge David G Campbell on 5-19-18. | 05/29/2018 | 11256 | ORDER. After having heard argument on several issues today, the Court enters the following orders: (1) Plaintiff proposes to place four redacted monthly management reports in evidence (Exs. 4504, 4519, 4522, 4528), with filter-related complaints included. These four reports include 83 filter complaints and would greatly expand the 40 complaints the Court previously permitted. Doc. 11157. This number of complaints would raise the concerns addressed in the Schwartz case previously cited by the Court. See Doc. 11122. The Court concludes that one monthly management report, with filter-related complaints included, is sufficient to accomplish Plaintiff's objective of showing that complaints were communicated monthly to senior management. The Court will admit Ex. 4519, including its filter-related complaints, for this purpose. The Court will also admit the Rule 1006 summary of complaints received by Defendants (assuming Defendants have no objection to the chart). (2) The Court concludes that evidence and argument presented during the trial have made section 3 of the FDA warning letter relevant, and that its relevancy is not substantially outweighed by the danger of unfair prejudice. The Court will admit Ex. 1680 as redacted. (3) The Court has two observations concerning the continued arguments regarding Recovery filter cephalad migration deaths. (a) Plaintiff continues to argue that if the Recovery had been recalled there would have been no predicate for the G2 and, therefore, no Eclipse filter to injure her. In fact, today Plaintiff's counsel called this a "key" to the case. But as the Court has noted before, there is no claim in this case for negligent failure to recall the Recovery filter. The only claims are for design defects and failures to warn with respect to the Eclipse filter. Thus, even if it is true that there would have been no Eclipse filter had the Recovery been recalled, that fact does not prove any of Plaintiff's claims. Nor does it prove that design defects or failures to warn with respect to the Eclipse filter proximately caused Plaintiff's injury. The Court is concerned that Plaintiff's counsel will argue in closing that the jury should find in her favor because recall of the Recovery would have meant no Eclipse, when that fact has nothing to do with any of her four claims. Plaintiff should be prepared to address this tomorrow morning. (b) The Court has previously noted that Recovery filter problems are a relevant part of the overall filter history in this case, but has found the cephalad migration deaths only marginally relevant in light of the fact that the G2 line of filters largely eliminated this type of complication. However, Defendants presented testimony from Dr. DeFord that the Recovery filter saved many more lives than it put at risk. |

|------------|--------------|---|
| | | Given this evidence, why should Plaintiff not be permitted to present at least some evidence that the Recovery filter in fact caused several deaths? Defendants should be prepared to address this tomorrow morning. Signed by Judge David G Campbell on 5-29-18. This is a TEXT ENTRY ONLY. There is no PDF document associated with this entry. | 07/12/2018 | <u>11838</u> | NOTICE of Appearance by Richard B North, Jr on behalf of Bard Peripheral Vascular Incorporated, C.R. Bard Incorporated. (North, Richard) (Entered: 07/12/2018) |
| 07/12/2018 | 11839 | ORDER . The Court has concluded that it must grant summary judgment in favor of Defendants on the claims of Plaintiff Carol Kruse. After reading relevant Nebraska cases, reading and re-reading the relevant deposition testimony, exhibits, and declaration, and considering the parties' arguments, the Court concludes that Ms. Kruse's claim is barred by the statute of limitations. The Court does not agree with Plaintiff's suggestion that the statute of limitations defense should be disregarded because this is a bellwether case. The Court will issue an order granting summary judgment and setting forth its analysis in the next two or three weeks. Because this ruling will eliminate the case to be tried in September, the Court will hold a telephone conference with counsel tomorrow morning at 10:00 a.m. Arizona time. The purpose of the call will be to determine whether it is possible to try the Hyde case in September. Although the Kruse jury questionnaire was scheduled to be mailed tomorrow, it could be mailed next week for the Hyde case and still permit a September trial. If Hyde can be tried in September, the Court will move either Mulkey or Tinlin to the November trial dates. The Court will email a dial-in number to the parties for tomorrow's conference. | 09/25/2018 | 12734 | ORDER . The Court has read the Kehl and Henrickson cases cited by the parties, and has considered the arguments made by the parties today and on previous days of trial. (1) The Court concludes that the statement in Exhibit 1053 regarding "aggressive marketing even in the absence of solid clinical history" is relevant to Plaintiffs' design defect claim, as is Janet Hudnall's testimony about that statement. The statement is made in a Product Opportunity Appraisal that considered modifications of Bard filters to resist migration and minimize tilting, and tends to support Plaintiffs' claim of inadequate testing. The Court does not find that it should be excluded under Rule 403. Although the statement was made several years before Mrs. Hyde received her filter, the Court has already concluded that design and testing to the Recovery and G2 filters are relevant in this case challenging later iterations in the same filter line. The evidence will be admitted. (2) The Court concludes that the sales commission information Plaintiffs seek to introduce through Mr. Hug is not relevant to the design defect claims. The Court has allowed Plaintiffs to present evidence of what was and was not told to doctors as part of the "not reasonably safe" component of this design defect case, but finds that the method of compensating sales representatives is not relevant to that claim. Plaintiffs have argued that it is relevant to punitive damages, but Kehl and Henrickson make clear that actions of a defendant are not admissible on punitive damages unless they caused or contributed to the plaintiff's loss. For the same reasons the Court granted summary judgment on Plaintiffs' failure to warn claims, it finds that the sales compensation system did not cause or contribute to Plaintiffs' loss. The evidence will not be admitted. Signed by Senior Judge David G Campbell on 9-25-18. This is a TEXT ENTRY ONLY. There is no PDF document associated with this entry. (DGC) (Entered: 09/25/2018) |

| 10/02/2018 | 12810 | ORDER . The Court took three matters under advisement after hearing arguments on jury instructions this evening. To aid the parties in preparing their closing arguments tonight, the Court provides its rulings now. (1) The Court will not give Defendants' additional proposed instructions on strict liability design defect, including the instructions submitted today at Doc. 12803 and the instructions proposed at pages 46-48 of Doc. 12438. The proposed instructions are not part of the Wisconsin product liability statute or model jury instructions, and the Court is striving to follow Wisconsin law as closely as possible. (2) The Court will give Defendants' proposed instruction on inherent characteristic (page 50 of Doc. 12438). Although this instruction is not found in the Wisconsin model jury instructions, the defense is codified in the Wisconsin product liability statute. Wis. Stat. § 895.047(3)(d). Given current Wisconsin case law, the Court cannot conclude as a matter of law that Defendants are not entitled to this statutory defense. As a result, Defendants are entitled by Wisconsin law to have the defense included in the jury instructions. The Court will give the proposed instruction after the strict liability design defect instruction. (3) The language to be added at the end of the sixth paragraph in Instruction 17 will read as follows: "However, other than fear of future events, you should not award any damages for the cost of a defibrillator or any other medical costs or injuries associated with future cardiac arrhythmias." This instruction will allow the jury to award damages for fear of future arrhythmias, but not for future arrhythmia-related injuries such as discomfort, fatigue, etc., consistent with the Court's Rule 50 ruling. | 11/26/2018 | 13482 | ORDER denying <u>13382</u> Motion to Withdraw as Attorney. Counsel has moved to withdraw from representing Plaintiff Blankumsee. Although counsel apparently has made many efforts to communicate with Plaintiff's spouse, the Court cannot conclude that allowing counsel to withdraw is the right answer. Such a step would leave Plaintiff unrepresented in this complex MDL proceeding. If counsel's client has died and family members do not wish to become parties, counsel should consider filing a notice of suggestion of death and a motion to dismiss. The Court will change the telephonic status conference set for 2/1/2019 at 10:00 AM to an "in person" status conference on the same day and time (2/1/2019 at 10:00 AM) in Courtroom 603, 401 West Washington Street, Phoenix, AZ 85003 before Senior Judge David G Campbell. The Court will provide a dial-in number for non-lead counsel who wish to appear telephonically. Lead counsel for Plaintiffs and Defendants shall appear in person at the hearing. The dial-in number for the hearing is 888-240-3210, Access Code 423834. Counsel dialing in shall remember to mute their phones after being connected to the conference call so that background noise does not interfere with the courtroom hearing. Roll call will not be taken of telephone participants. Signed by Senior Judge David G Campbell on 1/9/2019. This is a TEXT ENTRY ONLY. There is no PDF document associated with this entry. | 02/08/2019 | <u>15175</u> | ORDER denying <u>15072</u> Motion to Seal Document. This motion seeks leave to file under seal certain exhibits used in support of Defendants' summary judgment motion in the Tinlin case. Defendants argue that "good cause" exists to seal the exhibits. Motion at 2. But parties seeking to seal "documents attached to dispositive motions must meet the high threshold of showing that 'compelling reasons' support secrecy." <i>Kamakana v. City & Cty. of Honolulu</i> , 447 F.3d 1172, 1180 (9th Cir. 2006). "A 'good cause' showing will not, without more, satisfy a 'compelling reasons' test." <i>Id.</i> Defendants' motion therefore is denied. Defendants may refile the motion if they believe they can satisfy the "compelling reasons" standard. Signed by Senior Judge David G Campbell on 2-8-19. This is a TEXT ENTRY ONLY.
