ORDER ADOPTING REPORT AND RECOMMENDATION

This civil rights action brought by a prisoner, proceeding pro se, was referred to United States Magistrate Judge Bernard M. Jones, consistent with the provisions of 28 U.S.C. § 636(b)(1)(B). Judge Jones entered a Report and Recommendation on February 23, 2016, to which Petitioner has timely objected. The Court therefore considers the matter de novo.

The facts and relevant law are set out in full in the accurate and well-reasoned opinion of the Magistrate Judge and no point would be served in repeating that analysis. Plaintiff does not directly address either the factual recitation or the legal reasoning employed by the Magistrate Judge, but rather restates the legal conclusions contained in his Amended Complaint. There is nothing asserted by the Plaintiff which was not fully considered and correctly rejected by the Magistrate Judge, and no argument of fact or law is set forth in the objection which would require a different result.

Accordingly, the Court adopts, in its entirety, the Report and Recommendation of the Magistrate Judge, and for the reasons announced therein, dismisses the Amended Complaint with prejudice. A Judgment will enter accordingly.

IT IS SO ORDERED this 17th day of March, 2016.
