EXHIBIT A

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>U.S. 6,466,862</p> <p>1. A system for providing traffic information to a plurality of mobile users connected to a network, comprising:</p>		<p>The accused product does not provide "traffic information," and thus does not meet this element as properly construed.</p>	<p>Google</p> <p>"Traffic information" should be construed in the context of "traffic information representative of said signals transmitted by said traffic monitors" as we do below.</p> <p>Traffic Information</p> <p>"traffic information" means data regarding traffic conditions, which data can include, but is not limited to, the speed, velocity, motion, density, flow, frequency of vehicles on a road, and/or other data representative of the movement of vehicles on a road.</p>	<p>traffic information</p>	<p>The accused product/system provides information regarding traffic conditions, and therefore meets this element as properly construed.</p>
<p>(a) a plurality of traffic monitors, each said traffic monitor comprising at least a detector and a transmitter, . . .</p>	<p>traffic monitors</p>	<p>The accused product does not provide a stationary device capable of determining the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.</p>	<p>Google</p> <p>A stationary device capable of determining the current speed, frequency, or flow of multiple vehicles traveling along a road.</p> <p>Traffic Information</p> <p>"traffic monitors" means any device used to sense, measure, detect, and/or determine vehicular movement and transmit and/or provide a signal representative of vehicular movement.</p>	<p>traffic monitors</p>	<p>The accused product/system includes devices used to sense, measure, detect, and/or determine vehicular movement and transmit and/or provide a signal representative of vehicular movement, and therefore meets this element as properly construed.</p>

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>... said detector providing a signal including data representative of vehicular movement and said transmitter transmitting said signals;</p>		<p>The accused product does not provide a signal representative of the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.</p>	<p>Google The current speed, frequency, or flow of multiple vehicles traveling along a road as detected by one or more traffic monitors Traffic Information "Vehicular movement" means the velocity, speed, position, and/or change in position of a vehicle.</p>	<p>vehicular movement</p>	<p>The accused product/system includes devices that provide a signal representative of the velocity, speed, position, and/or change in position of a vehicle and therefore meets this element as properly construed.</p>
<p>(b) a receiver, remotely located from said transmitter, that receives said signals transmitted by said traffic monitors; and</p>					
<p>(c) a computer system ...</p>			<p>Google No construction necessary Traffic Information "computer system" means a computer or computers that receive data representative of vehicular movement from the traffic monitors and send traffic information representative of said signals transmitted by said traffic monitors to the mobile user stations by way of the network.</p>	<p>computer system</p>	<p>The accused product/system includes a computer or computers that receive data representative of vehicular movement from the traffic monitors and sends traffic information representative of the signals transmitted by the traffic monitors to the mobile user stations by way of the network and therefore meets this element as properly construed.</p>

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>... interconnected with said receiver and said network;</p>			<p>No construction necessary</p> <p>Traffic Information "interconnected" means the computer system facilitates the continuous or periodic movement of data from the receiver to the network.</p>	interconnected	<p>The accused product/system includes a computer system that facilitates the continuous or periodic movement of data from the receiver to the network and therefore meets this element as properly construed.</p>
<p>(d) a mobile user station connected to a global positioning system receiver, a display, and a communicating device; and</p>	mobile user station	<p>Google provides only the Nexus One mobile device and, therefore, the accused product cannot meet this element, as properly construed, as to mobile devices not supplied by Google.</p>	<p>Google A mobile device, distinct from a traffic monitor, capable of determining and displaying traffic information</p> <p>Traffic Information "mobile user station" means an easily moving or movable device that can transmit data to and/or receive data from the network. The mobile user station may be a cellular phone or other handheld unit, or may be installed within a car.</p>		

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>(e) said computer system, in response to a request for traffic information from one of said mobile user stations, . . .</p>		<p>The accused product provides information to the recipient after the recipient interacts with a device, and thus does not meet this element as properly construed.</p>	<p>Google Should be construed as part of "providing in response thereto"</p> <p>Traffic Information "in response to" means that the computer system, rather than only arbitrarily sending traffic information representative of said signals transmitted by said traffic monitors, is capable of sending traffic information representative of said signals transmitted by said traffic monitors to a mobile user station as a result of the mobile user station sending a request for traffic information to the computer system.</p>	<p>in response to</p>	<p>The computer system of the accused product/system, rather than only arbitrarily sending traffic information representative of the signals transmitted by the traffic monitors, is capable of sending traffic information representative of the signals transmitted by the traffic monitors to a mobile user station as a result of the mobile user station sending a request for traffic information to the computer system and therefore meets this element as properly construed.</p>

41063-0124/LEGAL/18665602.1

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>... providing in response thereto to said one of said mobile user stations ...</p>	<p>providing in response thereto</p>	<p>The accused product provides information to the recipient after the recipient interacts with a device, and thus does not meet this element as properly construed.</p>	<p>Google In response to a commuter's request, providing relevant traffic information for display by the mobile user station to minimize manipulation by the commuter while driving</p> <p>Traffic Information "providing in response thereto to said one of said mobile user stations" means the computer system supplies traffic information in response to (as defined above) a request from a mobile user station.</p>		

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>... traffic information representative of said signals transmitted by said traffic monitors;</p>	<p>traffic information representative of said signals transmitted by said traffic monitors</p>	<p>The indefiniteness of the term "user" renders the claim invalid pursuant to 35 U.S.C. § 112; alternatively, the accused product does not provide the current speed, frequency, or flow of multiple vehicles traveling along a road as detected by one or more traffic monitors, and thus does not meet this element as properly construed.</p>	<p>Google Indefinite; alternatively, the current speed, frequency, or flow of multiple vehicles traveling along a road as detected by one or more traffic monitors Traffic Information "traffic information representative of said signals transmitted by said traffic monitors" does not need a construction. However, if one is required, "traffic information representative of said signals transmitted by said traffic monitors" means "traffic information," as defined above.</p>	<p>traffic information</p>	<p>See "traffic information," above.</p>
<p>(f) wherein said traffic information transmitted by said computer system is displayed graphically on said display; and</p>	<p>displayed graphically</p>	<p>The accused product does not display graphical information alone, and thus does not meet this element as properly construed.</p>	<p>Google Represented other than in text format Traffic Information "displayed graphically" means that information representative of the map database and the traffic information are displayed in a pictorial format, such as a drawing, on the display of the mobile user station. Other information may be displayed, as well.</p>	<p>displayed graphically</p>	<p>The accused product/system displays information representative of the map database and the traffic information in a pictorial format, such as a drawing, on the display of the mobile user station and therefore meets this element as properly construed.</p>

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>(g) wherein said computer system has a map database, and said computer system, in response to said request for information, transmits map information representative of a portion of said map database, and said map information representative of said map database is displayed graphically together with said traffic information.</p>			<p>Google No construction necessary</p> <p>Traffic Information "map database" means a collection of map data representative of, but not limited to, roads, streets, highways, latitude and longitude information, and/or other geographical information.</p>	<p>map database</p>	<p>The accused product/system includes a collection of map data representative of, but not limited to, roads, streets, highways, latitude and longitude information, and/or other geographical information and therefore meets this element as properly construed.</p>
		<p>The accused product does not display graphical information alone, and thus does not meet this element as properly construed.</p>	<p>Google Represented other than in text format, as defined above</p> <p>Traffic Information "displayed graphically" means that information representative of the map database and the traffic information are displayed in a pictorial format, such as a drawing, on the display of the mobile user station. Other information may be displayed, as well.</p>	<p>displayed graphically</p>	<p>See "displayed graphically," above.</p>
<p>4. The system of claim 1 wherein said traffic detector detects vehicular speed.</p>					

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
9. The system of claim 1 wherein said user provides latitude and longitude information . . .	said user	The indefiniteness of the term "user" renders the claim invalid pursuant to 35 U.S.C. § 112; alternatively, persons using the accused product do not provide latitude and longitude information, and thus does not meet this element as properly construed.	<p>Google Indefinite; alternatively, a person who operates a mobile user station</p> <p>Traffic Information "said user" does not need a construction. However, if a construction is required, "said user" means said mobile user station of claim 1.</p> <p>Google No construction necessary</p> <p>Traffic Information</p>	computer system	See "computer system," above.
. . . to said computer system.					
10. The system of claim 1 wherein said computer system . . .					
. . . selects said traffic information . . .		The indefiniteness of the term "user" renders the claim invalid pursuant to 35 U.S.C. § 112; alternatively, the accused product does not provide the current speed, frequency, or flow of multiple vehicles traveling along a road as detected by one or more traffic monitors, and thus does not meet this element as properly construed.	<p>Google Indefinite; alternatively, the current speed, frequency, or flow of multiple vehicles traveling along a road as detected by one or more traffic monitors</p> <p>Traffic Information "traffic information" has the same meaning as in claim 1, above.</p>	traffic information	See "traffic information," above.

41063-0124/LEGAL18665602.1

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
... to provide to said mobile user station based on a signal received from said global positioning system receiver.	mobile user station	Google provides only the Nexus One mobile device and, therefore, the accused product cannot meet this element, as properly construed, as to mobile devices not supplied by Google.	<p>Google A mobile device, distinct from a traffic monitor, capable of determining and displaying traffic information</p> <p>Traffic Information "mobile user station" has the same meaning as in claim 1, above.</p>		
21. A system for providing traffic information to a plurality of mobile users connected to a network, comprising:		The accused product does not provide "traffic information," and thus does not meet this element as properly construed.	<p>Google "Traffic information" should be construed in the context of "traffic information representative of said signals transmitted by said traffic monitors" as we do below.</p> <p>Traffic Information "traffic information" has the same meaning as in claim 1, above.</p>	traffic information	See "traffic information," above.
(a) a plurality of mobile user stations, each mobile user station being associated with a display, a global positioning system receiver and a communicating device to allow each of said mobile user stations to send and receive signals;	mobile user station	Google provides only the Nexus One mobile device and, therefore, the accused product cannot meet this element, as properly construed, as to mobile devices not supplied by Google.	<p>Google A mobile device, distinct from a traffic monitor, capable of determining and displaying traffic information</p> <p>Traffic Information "mobile user station" has the same meaning as in claim 1, above.</p>		

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
(b) a computer system interconnected with another communicating device and a network, said computer system being capable of sending and receiving signals to and from said mobile user stations;			Google No construction necessary	computer system	See "computer system," above.
			Traffic Information "computer system" has the same meaning as in claim 1, above.		
			Google No construction necessary	interconnected	See "interconnected," above.
Traffic Information "interconnected" has the same meaning as in claim 1, above.					

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>(c) said computer system including a map database and a traffic information database, said traffic information database containing data representative of traffic at a plurality of locations;</p>			<p>Google</p> <p>No construction necessary</p> <p>Traffic Information</p> <p>"map database" has the same meaning as in claim 1, above.</p>	<p>map database</p>	<p>See "map database," above.</p>
	<p>data representative of traffic</p>	<p>The accused product does not display the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.</p>	<p>Google</p> <p>The term should be construed as part of the larger phrase "traffic information database containing data representative of traffic" and consistent with our definition below of "data representative of traffic."</p> <p>Traffic Information</p> <p>"traffic information database" means a collection of traffic information.</p>	<p>traffic information database</p>	<p>The accused product/system includes a collection of traffic information and therefore meets this element as properly construed.</p>
	<p>data representative of traffic</p>	<p>The indefiniteness of the term "user" renders the claim invalid pursuant to 35 U.S.C. § 112; the accused product does not display the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.</p>	<p>Google</p> <p>Indefinite; alternatively, the current speed, frequency, or flow of multiple vehicles traveling along a road</p> <p>Traffic Information</p> <p>"data representative of traffic" does not need a construction. However, if one is required, "data representative of traffic" means traffic information.</p>		

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>(d) at least one of said mobile user stations providing a request to said computer system for information together with a respective geographic location of said one of said mobile user stations,</p>					
<p>... and in response thereto, said computer system providing to said one of said mobile user stations . . .</p>	<p>in response thereto <i>(to a request/</i> providing to said one of said mobile user stations</p>	<p>The accused product provides information to the recipient after the recipient interacts with a device, and thus does not meet this element as properly construed.</p>	<p>Google In response to a commuter's request, providing relevant traffic information for display by the mobile user station to minimize manipulation by the commuter while driving, the request and the response must occur simultaneously</p>		
			<p>Traffic Information "in response thereto" has the same meaning as "in response to," in claim 1, above. "providing to said one of said mobile user stations" does not need a construction. However, if one is required, "providing to said one of said mobile user stations" means that the computer system supplies data to the mobile user station</p>		

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>... information representative of selected portions of said map database and selected portions of said traffic information database based on location of said one of said mobile user stations; and</p>	<p>information representative of . . . selected portions of said traffic information database</p>	<p>The indefiniteness of the term "user" renders the claim invalid pursuant to 35 U.S.C. § 112; the accused product does not display the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.</p>	<p>Google Indefinite in identification of selecting entity (i.e. user or system) and kind of information selected; alternatively, the current speed, frequency, or flow of multiple vehicles traveling along a road as detected by the traffic monitors, a subset of which is selected by the commuter.</p> <p>Traffic Information "information representative of selected portions of said map database and selected portions of said traffic information database" means that certain data from the map database and certain data from the traffic information database are transmitted to the mobile user station.</p>		
<p>(e) said one of said mobile user stations displaying graphically on said display information representative of said selected portions of said map database and said selected portions of said traffic information database.</p>		<p>The accused product does not display graphical information alone, and thus does not meet this element as properly construed.</p>	<p>Google Represented other than in text format, as defined above</p> <p>Traffic Information "displaying graphically" has the same meaning as in claim 1, above.</p>	<p>displaying graphically</p>	<p>See "displayed graphically," above.</p>

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
22. The system of claim 21 wherein said computer system is connected to a plurality of traffic monitors, and said traffic information database contains data derived from said traffic monitors.		<p>The accused product does not provide a stationary device capable of determining the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.</p>	<p>Google No construction necessary</p> <p>Traffic Information "computer system" has the same meaning as in claim 1, above.</p>	computer system	See "computer system" above.
		<p>The accused product does not display the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.</p>	<p>Google A stationary device capable of determining the current speed, frequency, or flow of multiple vehicles traveling along a road</p> <p>Traffic Information "traffic monitors" has the same meaning as in claim 1, above.</p>	traffic monitors	See "traffic monitors," above.
		<p>The accused product does not display the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.</p>	<p>Google The term should be construed as part of the larger phrase "traffic information database containing data representative of traffic" and consistent with our definition above of "data representative of traffic." - See comment above on this same term.</p> <p>Traffic Information "traffic information database" has the same meaning as in claim 21, above.</p>	traffic information database	See "traffic information database," above.

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
23. The system of claim 22 wherein said computer system updates said traffic information database based on data received from said mobile user stations.	mobile user station	The accused product does not display the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.	<p>Google</p> <p>No construction necessary</p> <p>Traffic Information</p> <p>“computer system” has the same meaning as in claim 1, above.</p>	computer system	See “computer system,” above.
			<p>Google</p> <p>The term should be construed as part of the larger phrase “traffic information database containing data representative of traffic” and consistent with our definition above of “data representative of traffic.”</p> <p>– See comment above on this same term.</p> <p>Traffic Information</p> <p>“traffic information database” has the same meaning as in claim 21, above.</p>	traffic information database	See “traffic information database,” above.
		Google provides only the Nexus One mobile device and, therefore, the accused product cannot meet this element, as properly construed, as to mobile devices not supplied by Google.	<p>Google</p> <p>A mobile device, distinct from a traffic monitor, capable of determining and displaying traffic information</p> <p>Traffic Information</p> <p>“mobile user station” has the same meaning as in claim 1, above.</p>		

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>25. The system of claim 21 wherein said computer system updates said traffic information database based on data received from said mobile user stations.</p>	<p>mobile user station</p>	<p>The accused product does not display the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.</p>	<p>Google No construction necessary Traffic Information "computer system" has the same meaning as in claim 1, above.</p> <p>Google The term should be construed as part of the larger phrase "traffic information database containing data representative of traffic" and consistent with our definition below of "data representative of traffic." - See comment above on this same term. Traffic Information "traffic information database" has the same meaning as in claim 21, above.</p> <p>Google A mobile device, distinct from a traffic monitor, capable of determining and displaying traffic information Traffic Information "mobile user station" has the same meaning as in claim 1, above.</p>	<p>computer system</p> <p>traffic information database</p>	<p>See "computer system," above.</p> <p>See "traffic information database," above.</p>

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
31. The system of claim 21 wherein said location of said one of said mobile user stations is displayed graphically.	mobile user station	Google provides only the Nexus One mobile device and, therefore, the accused product cannot meet this element, as properly construed, as to mobile devices not supplied by Google.	<p>Google A mobile device, distinct from a traffic monitor, capable of determining and displaying traffic information</p> <p>Traffic Information "mobile user station" has the same meaning as in claim 1, above.</p>	displayed graphically	See "displayed graphically, above."
32. The system of claim 31 wherein said displayed location of said mobile user stations changes based on movement of said mobile user station.	mobile user station	The accused product does not display graphical information alone, and thus does not meet this element as properly construed.	<p>Google Represented other than in text format, as defined above</p> <p>Traffic Information "displayed graphically" has the same meaning as in claim 1, above.</p> <p>Google A mobile device, distinct from a traffic monitor, capable of determining and displaying traffic information</p> <p>Traffic Information "mobile user station" has the same meaning as in claim 1, above.</p>		

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>US 6,785,606</p> <p>22. A system for providing traffic information to a plurality of mobile users connected to a network, comprising:</p>		<p>The accused product does not provide "traffic information," and thus does not meet this element as properly construed.</p>	<p>Google</p> <p>The term should be construed as part of the larger phrase "traffic information representative of said signals transmitted by said traffic monitors" consistent with what have set out below.</p> <p>Traffic Information</p> <p>"traffic information" has the same meaning as set forth above with regard to the '862 patent.</p>	<p>traffic information</p>	<p>See "traffic information," above.</p>
<p>(a) a plurality of traffic monitors, each said traffic monitor comprising at least a detector and a transmitter, . . .</p>	<p>traffic monitors</p>	<p>The accused product does not provide a stationary device capable of determining the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.</p>	<p>Google</p> <p>A stationary device capable of determining the current speed, frequency, or flow of multiple vehicles traveling along a road</p> <p>Traffic Information</p> <p>"traffic monitors" has the same meaning as set forth above with regard to the '862 patent.</p>		

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>... said detector providing a signal including data representative of vehicular movement and said transmitter transmitting said signals;</p>		<p>The accused product does not provide a signal representative of determining the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.</p>	<p>Google The current speed, frequency, or flow of multiple vehicles traveling along a road as detected by one or more traffic monitors Traffic Information "vehicular movement" has the same meaning as set forth above with regard to the '862 patent.</p>	<p>vehicular movement</p>	<p>See "vehicular movement," above.</p>
<p>(b) a receiver that receives said signals transmitted by said traffic monitors;</p>					
<p>(c) a computer system ...</p>			<p>Google No construction necessary Traffic Information "computer system" has the same meaning as set forth above with regard to the '862 patent.</p>	<p>computer system</p>	<p>See "computer system," above.</p>
<p>... interconnected with said receiver and said network;</p>			<p>Google No construction necessary Traffic Information "interconnected" has the same meaning as set forth above with regard to the '862 patent.</p>	<p>interconnected</p>	<p>See "interconnected," above.</p>

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
(d) a mobile user station includes a display, and a receiving device;	mobile user station	The accused product does provide a mobile device, distinct from a traffic monitor, capable of determining and displaying "traffic information," and thus do not meet this element as properly construed.	<p>Google</p> <p>A mobile device, distinct from a traffic monitor, capable of determining and displaying traffic information</p> <p>Traffic Information</p> <p>"mobile user station" has the same meaning as set forth above with regard to the '862 patent.</p>		
(e) said computer system providing to said one of said mobile user stations . . .	providing to said one of said mobile user stations	The accused product provides information to the recipient after the recipient interacts with a device, and thus does not meet this element as properly construed.	<p>Google</p> <p>Providing relevant traffic information for display by the mobile user station to minimize manipulation by the commuter while driving</p> <p>Traffic Information</p> <p>"providing to said one of said mobile user stations" does not need a construction. However, if one is required, "providing to said one of said mobile user stations" has the same meaning as set forth above with regard to the '862 patent.</p>		

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
<p>... traffic information representative of said signals transmitted by said traffic monitors;</p>	<p>traffic information representative of said signals transmitted by said traffic monitors</p>	<p>The indefiniteness of the term "user" renders the claim invalid pursuant to 35 U.S.C. § 112; the accused product does not display the current speed, frequency, or flow of multiple vehicles traveling along a road, and thus does not meet this element as properly construed.</p>	<p>Google Indefinite, alternatively, the current speed, frequency, or flow of multiple vehicles traveling along a road as detected by the traffic monitors Traffic Information "traffic information representative of said signals transmitted by said traffic monitors" does not need a construction. However, if one is required, "traffic information representative of said signals transmitted by said traffic monitors" has the same meaning as set forth above with regard to the '862 patent.</p>	<p>traffic information</p>	<p>See "traffic information," above.</p>
<p>(f) said traffic information transmitted by said computer system is displayed graphically on said display; and</p>		<p>The accused product does not display graphical information alone, and thus does not meet this element as properly construed.</p>	<p>Google Represented other than in text format Traffic Information "displayed graphically" has the same meaning as set forth above with regard to the '862 patent.</p>	<p>displayed graphically</p>	<p>See "displayed graphically," above.</p>

Claim	Google Terms Identified	Google Statement of Importance	Proposed Construction	Traffic Information Terms Identified	Traffic Information Statement of Importance
(g) wherein less than all available traffic information is displayed by said display.		The indefiniteness of the term "user" renders the claim invalid pursuant to 35 U.S.C. § 112.	<p>Google Indefinite in degree (i.e. amount of information) and kind of information</p> <p>Traffic Information "less than all available traffic information" means that the computer system may send traffic information corresponding to only some of the traffic monitors.</p>	less than all available traffic information	The computer system of the accused product/system may send traffic information corresponding to only some of the traffic monitors and therefore meets this element as properly construed.
