Product Description

Product Description
 Todays Mom Cozy Comfort Pregnancy Pillow Good maternity pillows are hard to find. It's all about mom's comfort when it comes to a pregnancy pillow and Today's Mom Cozy Comfort is an excellent, patent pending maternity pillow. Sleeping on a Cloud Today's Mom has listened to the biggest concerns of...well, moms of course! One of the biggest pregnancy pillow problems has been hard edges digging into mom's shoulder. The Cozy Comfort has a curve shaped, shoulder support design, that contours to the shoulder and provides a soft sleep. Another problem examined by Today's Mom is lumbar support. The Cozy Comfort correctly supports mommy's weight while she sleeps. An important upgrade mother's demanded was belly support. This maternity body pillow features a belly support allowing the tummy to rest and support the baby comfortable. Perhaps the best feature is the large, square head rest area. Other pillows feature a flimsy, oddly shaped area for the head. The Cozy Comfort's head support resembles a standard pillow to provide comfort. Convenience You can Count on This is one of the only pregnancy pillows designed with an easy to remove zipper-cover. Now, the pillow and case can be separated for washing. Both are machine washable, made of a 50/50 combination of polyester and cotton, and a 200 Thread count percale. This revolutionary pillow is patent pending. A smart, comfortable mom is Today's Mom. Order the Today's Mom Cozy Comfort Pregnancy Pillow today!
