

determination remains with the Court. *Mathews v. Weber*, 423 U.S. 261, 270 (1976). The Court is charged with making a de novo determination of those portions of the Report to which specific objection is made, and the Court may accept, reject, or modify, in whole or in part, the recommendation of the Magistrate Judge or recommit the matter with instructions. 28 U.S.C. § 636(b)(1).

The Magistrate Judge filed the Report on December 16, 2017, and the Clerk of Court entered Plaintiff's objections on January 3, 2017. The Court has carefully considered the objections, but finds them to be without merit. Therefore, it will enter judgment accordingly.

The Court's characterization of Plaintiff's January 3, 2017, submission as "objections" is a charitable one. Frankly, Plaintiff has largely failed to object to the Report. Instead, he generally makes arguments that have no merit. Therefore, the Court will overrule his "objections."

After a thorough review of the Report and the record in this case pursuant to the standards set forth above, the Court overrules Plaintiff's objection, adopts the Report to the extent it does not contradict this Order, and incorporates it herein. Accordingly, Defendant McDonald's motion for summary judgment is **GRANTED** as to Plaintiff's federal claims, the other defendants' motion for summary judgment is **GRANTED** as to Plaintiff's federal claims, Plaintiff's motion for summary judgment is **DENIED**, Plaintiff's motion for a third-party doctor examination is **DENIED**, Plaintiff's federal claims are **DISMISSED WITH PREJUDICE**, and his state claims are **DISMISSED WITHOUT PREJUDICE** so he can pursue them in state court if he wishes to do so.

IT IS SO ORDERED.

Signed this 6th day of February, 2017, in Columbia, South Carolina.
