

EXHIBIT 7

TO: Scott Fuson
American National Property & Casualty

SUBJECT: Carol Stutte & Laura Stutte

LOCATION: Vonore, TN

SUBMITTER NO: 08643

ANPAC CLAIM NO: 41H-25N023

INCIDENT DATE: 09-04-10

LAB NO: 10-1017

DATE: September 21, 2010

On September 20, 2010, the following items were received from Gary Young, via mail with a request for analysis.

ITEMS:

Six one-gallon metal cans containing debris and labeled:

- (I) Basement kitchen
- (II) Near refrigerator basement kitchen
- (III) Kitchen center post
- (IV) Left rear basement exterior door
- (V) Basement hearth
- (VI) Left side single exterior door

EXAMINATION REQUESTED: Ignitable Liquid Determination

RESULTS:

Each item was subjected to passive headspace concentration and examined by Gas Chromatography / Mass Spectrometry.

Items I, III, V and VI failed to reveal the presence of an identifiable ignitable liquid.

Items II and IV contains components identifiable as evaporated gasoline.

DISPOSITION: The evidence will remain at this agency pending further notice.

Respectfully submitted,

Dennis C. Aktin, F-ABC
Forensic Scientist
