**ORDER**

A telephone conference was held with the parties in this matter on January 18, 2011. The parties advised that they were a little behind on their discovery. However, all parties want to maintain the August 2, 2011, trial date because of football scheduling issues. The present scheduling deadlines will remain unchanged absent a request by any parties for a modification.

In view of the tight schedule, the parties are reminded that they should call the Magistrate Judge as soon as practicable about any discovery dispute so that it hopefully can be resolved in a single telephone call.

The parties are also reminded that the Magistrate Judge stands ready to assist with alternative dispute resolution at any time upon request.

It is so **ORDERED**.
