v.  
Apple Inc; Shelly Sterling, Timmy Lovins, Pandora Media  
Inc.  
Defendants

Motion for Preliminary Injunction,  
Temporary Restraining Order, TRB Under 28 USC  
1331

Patent, Trademark Violations, Whistleblowing  
Defendants stole our patents. We own Quick  
Links and Slide to Unlock. Apple hired Shelly  
Sterling as a hitwoman she threatened to  
shoot a I-phone to shut us up from whistleblowing  
her. Shelly Sterling said no homo's or chomo's  
deserves Apple Gadgets. Mrs. Sterling threatened  
to put a Apple on Plaintiff Son Truong's  
Head and shoot it with a Bow for being  
Korean. Apple sunk the North Korean Ferry  
remotely with a I-phone because Sam Sung  
technicians were on the Ferry, so Apple could  
knock out the competitor. Plaintiffs have  
selfies on Apple I-phone photos at a terror  
based office intelligence center in Bucks County,  
PA with lawyer Jeffrey Hommel middleman  
mastermind of terror networks in the  
Delaware Valley. Plaintiffs seek a restraining  
order and congressional investigation for  
these homegrown terrorist affiliates.

Jeffrey Mommel, Kelly Fischer, Laurie Ritter,  
Stacy Stephon, Crystal Hayworth, Sunny  
Beatrice, Joseph Duffy, Eftalia Tzorgie and  
sons are orchestrating Fatwas stating  
Allahu billahi spinash shaatanis rajem  
against the American people especially with  
their East Coast terror outfits and bases  
with covert and sinister intelligence.  
we and the American public seek relief and  
protection from these mujadeen under  
the perfect camouflauge.

Respectfully Omitted,
