Click a media file. <p>To stop playing a media file, click the stop icon.</p> <p><i>BlackBerry Tour 9630 Smartphone User Guide v5.0</i> at 103.</p>
1.a	means for storing a plurality of program segments, each of said program segments having a beginning and an end,	<p>The Tour has a means for storing a plurality of program segments, each of said program segments having a beginning and an end. This limitation is governed by 35 U.S.C. § 112, para. 6. The Tour literally performs the identical function with identical, or at least equivalent, structure.</p> <p>The “storing” structure in the Tour is replaceable media, which is a microSD card. A microSD card is sold with the Tour and comes in the box.</p>

BlackBerry device memory

BlackBerry® devices include the following types of memory:

Memory	Description
flash	The BlackBerry operating system and all application modules are stored persistently in flash memory. When a BlackBerry device user turns on the BlackBerry device, the core operating system and the BlackBerry® Java Application modules use approximately 10 MB to 15 MB of flash memory, depending on the version. Flash memory can store the BlackBerry device user's email messages, organizer data, and other personal information, as well as the data that a BlackBerry Java Application stores in memory.
SRAM	SRAM controls the transient data objects and runtime processes.
microSD expandible memory card	The microSD card stores media files, documents, and persistent data from a BlackBerry Java Application.

BlackBerry Java Development Environment - 4.7.0 - Fundamentals Guide at 24.

“About media cards

Depending on your BlackBerry® device model, you can insert a microSD media card into your device to take videos and extend the memory that is available on your device for storing media files such as songs, ring tones, videos, or pictures. For more information about inserting a media card into your device, see the printed documentation that came with your device.”

BlackBerry Tour 9630 Smartphone User Guide v5.01 at 117.

Technical Details

- BlackBerry smartphone with QWERTY keyboard; dual-network capable for 3G-enabled GSM access when traveling abroad
- Access V Cast, Music and Video services via fast EV-DO data network; GPS-enabled for turn-by-turn directions; use phone as a modem for your laptop
- 3.2-megapixel camera/camcorder; Bluetooth stereo music; microSD memory expansion to 16 GB; access to personal and corporate email
- Up to 5 hours of talk time, up to 336 hours (14 days) of standby time
- What's in the Box: handset, battery, travel charger, 2 GB MicroSD card, wired stereo headset, swivel holster

See <http://www.amazon.com/BlackBerry-Tour-Phone-Verizon-Wireless/dp/B002GJTS3I>.

		<p>The Tour stores audio files on the microSD card.</p> <p>“Insert a media card</p> <p>Use a microSD media card to extend the memory available on your BlackBerry® device for storing media files such as songs, ring tones, videos, or pictures. The media card might be sold separately from your device.</p> <ol style="list-style-type: none"> 1. Hold up the release button for the battery cover and lift off the battery cover. 2. Hold the media card so that the metal contacts on the media card face down and point toward the right side of your device. 3. Slide the media card into the media card slot until it stops. <p>To remove the media card, slide the media card out of the slot.”</p> <p><i>BlackBerry Tour 9630 Smartphone Getting Started Guide at 28-29.</i></p>
1.b	means for receiving and storing a file of data establishing a sequence in which said program segments are scheduled to be reproduced by said player,	<p>The Tour has a means for receiving and storing a file of data establishing a sequence in which said program segments are scheduled to be reproduced by the player. This limitation is governed by 35 U.S.C. § 112, para. 6. The Tour literally performs the identical function with identical and equivalent structure.</p> <p>The “receiving” structure in the Tour is the micro USB port on the side of the device. The structure is equivalent to the construed IR structure.</p>

Synchronize your music from your computer to your device using BlackBerry Media Sync
To perform this task, mass storage mode must be turned on.

Using BlackBerry® Media Sync, you can synchronize specific iTunes playlists and Windows Media® Player playlists to your BlackBerry device or a random selection of your songs that are not in a playlist.

1. Connect your device to your computer.
2. On your computer, open the BlackBerry® Desktop Manager.
3. Click the Media icon.
4. In the BlackBerry Media Sync section, click the Launch tab.

		<p>5. If necessary, in the drop-down list, select your music application.</p> <p>6. Perform one of the following actions:</p> <ul style="list-style-type: none">• To synchronize specific playlists, select the check box beside one or more playlists.• To synchronize a random selection of your songs, select the Fill available space with random music check box. Available space does not include the reserved space.• To synchronize specific playlists as well as a random selection of your songs, select the check box beside one or more playlists. Select the Fill available space with random music check box. Available space does not include the reserved space. <p>7. Click Sync Music.</p> <p>8. Click OK.</p> <p>9. Disconnect your device from your computer.</p> <p>To view your playlists on your device, on the Home screen, click the Media icon. Click the Music icon. Click Playlists. Your songs that are not in a playlist appear in the Random Music playlist.</p> <p>For more information about transferring and managing media files, see the online help in BlackBerry Media Sync.</p> <p><i>BlackBerry Tour 9630 Smartphone User Guide v5.0 at 120-121.</i></p>

About the BlackBerry Desktop Software

You can use BlackBerry® Desktop Software to charge your BlackBerry device, back up and restore device data, and synchronize calendar appointments, music, pictures, and so on, between your device and your computer.

For more information, see the online help in the BlackBerry® Desktop Manager.

System requirements: BlackBerry Desktop Software

- Intel® compatible 486 or later computer that is compliant with USB 1.1 or later
- Windows® XP or later or Mac 10.5.5 or later
- BlackBerry® User Tools CD
- On Windows computers, iTunes 7.2 or later or Windows Media® Player 10 or later
- On Mac computers, iTunes 7.7 or later

Install the BlackBerry Desktop Software

You can install the BlackBerry® Desktop Software from the BlackBerry® User Tools CD or from www.blackberry.com/softwaredownloads.

BlackBerry Tour 9630 Smartphone User Guide v5.0 at 120-121.

BlackBerry® Tour 9630 smartphone Support Simulator available at <http://support.vzw.com/clc/devices/index.html?p=4866> (accessed 8/12/11)

Once a user has started listening to a playlist on the Tour, the device automatically plays the audio file next in the playlist sequence after the previous audio file ends. The Tour reproduces the audio file in the order established by the playlist without the need for the user to entering a control command. Once a playlist has been selected, no further control command is required for continuously reproducing said program segments in the order establish by said playlist sequence. The software that performs this function is proprietary to RIM and/or not publically available.

Shuffle songs

1. On the Home screen, click the **Media** icon.
2. Click **Music**.
3. Perform one of the following actions:
 - To shuffle all your songs, click **Shuffle Songs**.
 - To shuffle all the songs in a category or a playlist, click a category or playlist. Press the **Menu** key. Click **Shuffle**.

To stop shuffling songs, press the **Menu** key. Click **Shuffle**.

BlackBerry Tour 9630 Smartphone User Guide v5.0 at 104.

The Tour can be set to play songs in order and repeat songs.

“Play a media file

1. On the Home screen, click the **Media** icon.
2. Click a media type.
3. If necessary, click a category.
4. Click a media file.

To stop playing a media file, click the stop icon.”

BlackBerry Tour 9630 Smartphone User Guide v5.0 at 103.

“Repeat songs

You can repeat a single song or all the songs in a category or playlist.

1. When you are playing a song, press the **Menu** key.
2. Click **Repeat**.
3. Perform one of the following actions:
 - To repeat the song that is currently playing, click **Current Song**.
 - To repeat the playlist that is currently playing, click **Playlist**.
 - To repeat the songs in the **Album** category or **Artist** category that you are currently playing, click **Album** or **Artist**.”
